THE SUPERINTENDENT OF WORKS

GODAVARI DISTRICT.

TO

THE CHIEF ENGINEER *Q. B. Department*
FOR IRRIGATION

Enclos.

Dowlaishweram, 19 May 1887.

SIR,

I have the honor to report
the following—
Under G.O. No. 3153 of 5th August 1878
30 logs of Burmah teak forming a
portion of the timber at Dumagudem
were some little time ago brought
to the Dowlaishweram Workshops and
were there measured according to the
usual rule for timber measurement,
deductions being made; just as when
timber is purchased in the local mar-
ket; for holes through the logs, unsound
ends &c. &c.

2. The timber as thus measured
comes to 2349¹/₂ cubic feet, while accord-
ing to the Dumagudem stock measure-
ment it amounts to 3109 Cubic feet
the

the difference 760' cfeet is owing to the wood having been simply measured, by taking the full length (in most cases a foot more) and an average breadth and thickness. I applied to Mr Vansta-vern - late Executive Engineer Duma-gudem for some explanation of this very considerable difference and his reply is that the timber was purchased about the year 1869 for the 2nd Barrier works when wood was very scarce & dear and that the conditions were, that it was to be measured in the manner I have stated & without any deductions. Under these circumstances I have the honor to request permission to write the value of the difference in measurement off to profit & loss and with reference to para 2 of the Note by the Chief Engineer for Irrigation printed with G.O No. 914 of the 4th April and the order thereon I presume that the timber under notice may also be transferred to the Workshops at the present market rates. Which are lower than when G.O No. 3153

of 3rd August 1878 was issued. I hope there will be no objection to this proposal, as it as, the Workshops will lose, having to pay interest on the value of a considerable amount of timber for which there is at present no demand, in the District. All orders being for Godavari teak.

I have the honor to be,
Sir,
your most obedient Servant

J. P. Laxminarayana
A. E. Supt. of Works Godavari.
