CIRCULAR MEMORANDUM.

PENDING publication for information and guidance of the new edition of the P. W. Code (possibly in two months' time) the undersigned requests that the Superintending Engineers will be good enough to submit an early expression of their opinions as to the modifications now feasible in the business of their Offices, in which by following more closely the routine prescribed by the Code in their connection with the Central and Executive Engineers' Offices, unnecessary labour may be saved and the responsibilities of the different grades may be more strictly enforced than would appear to be the case at present.

2. As an instance of what may be done in saving labour, the undersigned would draw attention to the provisions of Code, Ch. III, ii, 9. The present practice is to submit to the Central Office details of all estimates under Rs. 5,000 each, whereas, with the consent of Government, the abstract alone is required. The requisite sanction having now been obtained, the procedure in future as regards all such estimates will be that prescribed by the Code.

3. In furtherance of the object now in view to enforce a strict adherence to Code Rules, the undersigned requests all Superintending Engineers to take the needful measures for insisting on all members of the Department in their respective circles acquiring a complete knowledge of the chapters already issued. These will in future form portion of the examination of Assistant Engineers, Ch. II, iv, paragraph 17 to 19.

4. As regards the acquirement of a competent knowledge of the Code by members of the Office establishments, the undersigned is of opinion that all incumbents of posts over 50 Rupees per mensem should be called on to pass an examination therein, within a given time, and that in future no promotion should be accorded to Clerks, drawing the above pay or less, unless similarly qualified; but before issuing any instructions to this effect, the Superintending Engineer will be good enough to report their opinions on the subject.

Chief Engineer, P.W.D.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 10th May 1881.

Read the following letter from A. CRUICKSHANK, Esq., President of the Local Fund Board, South Arcot Circle, to C. A. GALTON, Esq., Secretary to the Board of Revenue, dated Tiruvannámalai, 8th March 1881, No. 10:—

IN acknowledging the receipt of Board's Proceedings, dated 20th December last, Miscellaneous No. 14,068, communicating G.O., No. 2,875-W., dated 13th idem, sanctioning the estimate of Rs. 78,570 for metalling twelve miles of the Coast road from Puduchattram to the Coleroon in the Chidambaram Taluk, I have the honor to state that the Executive Engineer of the South Arcot Division was asked to send the detailed estimate and specification for the work, and that officer reported that they were not prepared and that only an approximate estimate had been prepared as it was not intended for final sanction at the time it was sent up, viz., in 1877. The Local Fund Engineer was therefore desired to prepare and send detailed estimate and specification for the sanction of the Local Fund Board, and he accordingly sent a revised estimate for Rs. 74,600, or Rs. 3,970 less than the amount sanctioned in the Government Order above quoted. The Local Fund Board sanctioned it in the accompanying copy of Resolution 2 of their Proceedings of the 28th February last.

2. I have therefore the honor to request that the Board will be pleased to obtain the sanction of Government for the revised estimate* herewith sent.
