(64) Surveys
Remarks for Guidance

1. Form "E" is intended for submission by Supg. Engineers to the Chief Engineer, and is merely an abstract for each Division. It will be open to the Chief Eng^r to call for, or to Supg. Eng^s to submit, reports for individual works in Form "B" or "C" where such a course may appear desirable.

2. It is to be understood that these returns are not accounts, and altho' the figured entries should be as accurate as circumstances will allow, promptitude & regularity in their submission is of more importance in their accuracy. No annexes should appear in them. Great care should be taken that the name of the work is in all cases absolutely the same designation as that under which it has been sanctioned.

3. In the Irrigation Branch the expenditure on P. S. Works will be shown under main subheads for each Canal in each system. Expenditure on other works will be shown under Budget Heads in a lump sum for "Original Works" and "Repairs".
