From

Lieutenant Colonel J. Beatty R.E.,
Superintending Engineer 3rd Circle.

Colonel R. H. Sankey, C.B., R.E.,
Chief Engineer P.W.D.

Sir,

I have the honor to request
you will be good enough to authorize
the sale by public auction of two small
sheds with pukka walls and thatched
roofs, one situated in Gopu Village and
the other close to the Upper anicut, in
the Trichinopoly Division.

2. It is reported that both
these sheds are fast falling into
ruins, and are seldom used by any
one. The buildings are not borne on
the return of public buildings, and
are not required for any particular
purpose.

3. It appears from enquiries
made that the sheds were built by
a late 3rd grade Sub. overseer during

the Famine in 1877-78, and were
intended by him as halting sheds
for the members of this Department.
Their original cost is not known.

4. I request therefore permis-
sion may be given to pull these build-
ings and sell the materials.

I have the honor to be,

Sir,

Your most Obedt. Servant

FOR IRRIGATION

Enclos. *one*

Dowlaisheram, 9 June 1887.

SIR,

I have the honor to report for your information that the Upper Godavari Steamer "Wurda" is much in need of repair. Should she be again required to work for Military, Political, or other reasons, it will be extremely desirable to carry out the repairs provided for in the accompanying estimate amounting to Rupees 1080. The repairs required (as detailed in the estimate) are of a general character. Engine duplicate parts, bearings, straps, ~~see~~, paddle bearings, bushes & floats. Caulking, painting &c. The hull is in fair order, with the exception of one hole on the starboard bilge plate now closed by a Godavari patch (mud & lime). The estimate provides

It seems a pity to allow a steamer
like this; even though there may be
at present, no apparent likelihood of
her being again required; to fall out
of repair: so I beg to submit the matter
for your consideration.

To

Mr

The question of the disposal of this vessel is now under the consideration of Govt. It may perhaps be considered desirable to carry out these repairs meanwhile?
