Monegar Choultry.

Read the following paper:—

From the Directors of the Monegar Choultry, to His Excellency the Right Honorable the Governor in Council, Fort St. George, dated Monegar Choultry, 21st March 1881, [Current No. 678].

We have the honor to forward herewith the annual report and accounts connected with the Monegar Choultry, Native Infirmary, Asylum for Foundling and Stray Children, Rajah of Venkatagiri's Choultry, and Ramaswamy Mudaliar's Lying-in Ward for the year 1880.

2. The average daily number of paupers in the Dépôt Choultry, of patients in the Native Infirmary, and of children in the Foundling Asylum maintained during the year was altogether 205. In 1879 it was 316, the decrease per diem being 111.

3. The receipts from all sources during the year, as will be seen from the annexed account current, amount in the aggregate to Rs. 16,743-8-0.

4. The actual disbursements during the year under report were Rs. 11,894-8-8 besides the investment of Rs. 2,000 in Government Securities of 4 per cent. loan.

5. The charge for establishment was Rs. 3,259-15-11 and for contingencies and repairs Rs. 2,002-14-5,* or Rs. 4,122-10-8 less than the preceding year.

	RS.	A.	P.
* Surgeon's Indent	1,368	0	3
Choultry Contingencies	467	6	7
Repairs in general	167	7	7
Total	2,002	14	5

6. The average cost for each pauper in the Choultry was one anna and one and half pies, for each patient in the Infirmary one anna and seven and three-quarter pies, and for each child in the Foundling Asylum ten and quarter pies.

7. The average number of pauper inmates throughout the year in the Rajah of Venkatagiri's Choultry was per diem 42, besides 108 caste paupers supplied with dry rations; the expenses on this account aggregated Rs. 3,184-5-2; this amount is inclusive of clothing, bedding, and all contingencies, leaving at the end of the year in favor of the Endowment Fund a balance of Rs. 1,493-7-7 as per statement submitted.

8. The Lying-in Ward built by Mr. P. S. Ramaswamy Mudaliar was opened to the public on the 5th April by His Grace the Duke of Buckingham and Chandos. Since its opening and up to 31st December 1880, 226 patients were admitted into the hospital, and from the way in which this branch of the hospital is being availed of, the Directors are sanguine that in course of time the ward will become a very useful appendage to the institution. In consequence, however, of its not having been endowed by the founder to the full extent of its monthly expenditure, some doubt was felt by the Directors as to the expediency of its being made a part of the General Monegar Choultry. But looking to the great advantages which the addition is likely to confer upon the poorer residents of the northern part of the city, it has been resolved to amalgamate the Lying-in Ward with the General Choultry and to send round an appeal to the public for donations to supplement the endowment. It is confidently hoped that the measure which the Directors have adopted will not end in crippling the resources of the General Institution.

9. With reference to paragraph 13 of our annual report of 1878, we feel constrained again to call the special attention of Government to the state of the buildings of the institution. Such is the present state of the roof of the Infirmary that it would not be advisable during the monsoon to accommodate patients therein. We trust that the premises will, as promised, be placed on the list of public buildings for repair, as the funds of the institution are insufficient to do more than meet the ordinary claim on it.

10. No effort has been wanting on the part of the Directors to enlist the sympathies of the public on behalf of the institution and to keep its objects constantly before the public by urgent appeals. But they must state that the extent of the response from the general public to their appeals has not been commensurate with the usefulness of the institution. Individual cases of private munificence are not at the same time wanting, and it is with much pleasure that the Directors bring to the notice of Government, for instance, the liberal gift of the Hon. G. N. Gajapathi Rao of bedding and clothing to the inmates of the Choultry in addition to his usual annual donation of Rs. 400 to the institution.

11. The Directors are also glad to bring to the notice of Government that the receiver of the estate of the late Mr. Venkataswami Nayudu has handed over to them Government Papers of 4 and $4\frac{1}{2}$ per cent. for Rs. 29,600 as a permanent fund to yield a monthly income of Rs. 100 to the institution.

ORDER THEREON, 4th May 1881, No. 621.

The Directors of the Monegar Choultry submit the annual report and accounts of the institution for the year 1880.

2. The accounts show that the receipts, including the balance brought over, aggregated Rs. 17,536-0-4, and the charges Rs. 13,894-8-8, leaving a balance of Rs. 3,641-7-8.

3. Compared with 1879 the receipts during 1880 were less by Rs. 7,402-9-2 and the charges by Rs. 10,251-8-6, leaving the balance greater by Rs. 2,848-15-4.

4. A sum of Rs. 2,000 was invested in 4 per cent. Government Securities during 1880. The amount of Capital in the Government Treasury at the close of the year aggregated Rs. 66,877-13-5, and the amount of Government Securities in the custody of the Collector of Madras Rs. 23,000, in addition to a similar investment of Rs. 24,000 on account of the Lying-in Hospital.

5. Compared with 1879 the number of paupers dieted in the Asylum, the number of children in the Foundling Asylum, and the number of inmates in the Native Infirmary during 1880 are shown in the annexed statement:—

	Number of Paupers dieted in the Asylum.	Foundling Asylum.	Native Infir- mary.	Total.

7. The Government note with satisfaction the liberal gifts of the late Mr. Venkataswami Nayudu and the Hon. Rajah Gajapathi Rao adverted to in paragraphs 10 and 11 of the report.

8. In the Venkatagiri Rajah's Choultry the aggregate number of out-door and in-door paupers who received relief during the year 1880 was 39,184 and 14,847, respectively. The receipts of the institution aggregated Rs. 4,677-12-9 and the charges Rs. 3,184-5-2, leaving a balance to credit of Rs. 1,493-7-7.

9. The Lying-in Ward built by Mr. P. S. Ramaswamy Mudaliar was during the year made a part of the General Monegar Choultry. The charges during the seven and a half months it was in working amounted to Rs. 1,020-2-10. It is hoped that the appeal made to the public in view to supplement the endowed capital of the institution will result in its becoming thoroughly self-supporting.

10. With reference to paragraph 9 of the report, the Committee will be requested to refer to any Proceedings of Government conveying the promise to which they refer, to place the Institution buildings on the list of public buildings to be repaired at the State's expense. Meanwhile the Public Works Department will cause an estimate to be prepared for putting in order the roof of the Infirmary, which is said to be unsafe.

11. The report is satisfactory. The thanks of Government will be conveyed to the Committee for their services.

7. The Government note with satisfaction the liberal gifts of the late Mr. Venkataswami Nayudu and the Hon. Rajah Gajapathi Rao adverted to in paragraphs 10 and 11 of the report.

8. In the Venkatagiri Rajah's Choultry the aggregate number of out-door and in-door paupers who received relief during the year 1880 was 39,184 and 14,847, respectively. The receipts of the institution aggregated Rs. 4,677-12-9 and the charges Rs. 3,184-5-2, leaving a balance to credit of Rs. 1,493-7-7.

9. The Lying-in Ward built by Mr. P. S. Ramaswamy Mudaliar was during the year made a part of the General Monegar Choultry. The charges during the seven and a half months it was in working amounted to Rs. 1,020-2-10. It is hoped that the appeal made to the public in view to supplement the endowed capital of the institution will result in its becoming thoroughly self-supporting.

10. With reference to paragraph 9 of the report, the Committee will be requested to refer to any Proceedings of Government conveying the promise to which they refer, to place the Institution buildings on the list of public buildings to be repaired at the State's expense. Meanwhile the Public Works Department will cause an estimate to be prepared for putting in order the roof of the Infirmary, which is said to be unsafe.

11. The report is satisfactory. The thanks of Government will be conveyed to the Committee for their services.
