

Attendant, Madras, in
which Captain Taylor
shows that, valuable
as Colonel Beaumont's
method of blasting
seems to be when
applied in rivers and
quiet waters, it is,
in its present form,
entirely inapplicable
for removing rocks
in the open ocean.
The cost also, of which
the estimate framed
by Colonel Beaumont
seems to omit some
important items, would
apparently preclude
the adoption of the

system on any large
and important work.
