*Proceedings of the Madras Government, Public Works Department.*  
*2nd February 1874.*

No. 17. Read the following endorsement of the Officiating Controller of Public Works Accounts, dated 16th December 1873, No. 6,058:—

From Major J. O. HASTED, R.E., District Engineer, Kistna, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Camp at Ponnore, 25th November 1873, No. 89.

I HAVE the honour to forward, herewith, a statement showing the loss on materials collected for Sub-Magistrate's Cutcherry at Avanigadda, and to request the sanction of Government to the amount, Rupees 1,243-9-1, being written off to profit and loss.

2. The subject engaged my attention in March last, but the accounts rendered were not sufficiently explicit and had to be returned for explanation to the Range Officer. Further correspondence has taken place in consequence of my objecting to the large deficiency of bricks, and it was hoped that this loss would be accounted for, as it was said that the bricks had been used on another work and not paid for. Every attempt, however, has been made to trace them without success, and I am obliged to apply for permission to write off the full amount of loss.

3. The work was sanctioned in 1868, and materials collected in 1869 at a cost of Rupees 4,883-10-8. Since that time no funds have been allotted, and the Superintending Engineer directed that such materials as could be disposed of without loss should be sold. A certain amount was sold as shown in the statement, realizing Rupees 1,014-7-3, with a loss of Rupees 173-12-10. The Range Officer now applies for permission to sell certain other materials which are rapidly losing their value, and anticipates that they will realize Rupees 205, at a loss of Rupees 207-8-0 on their original value. The remainder of the bricks, tiles, lime, and sand are not forthcoming, and a small portion of the wood has suffered from attacks of white-ants, the dead loss on these articles is Rupees 565-11-5. Pay of watchers has amounted to Rupees 155-4-6, and is also a dead loss; and Rupees 141-4-4 has been expended on superintendence and sundries, which is also a dead loss, as there is now only some timber remaining at the Range stores on which no superintendence or sundries should properly be charged.

4. Of the loss which has resulted on articles sold, I need make no remark, as they had of course deteriorated by long exposure; it is also evident that there must be a loss on watching materials for so long a time and on superintendence and sundries principally expended on brick-fields. The sand was washed away in high floods, and the tiles, both raw and burnt, must be expected to become valueless, after so long exposure near the sea. That so large a number of bricks is missing, however, is most unsatisfactory, and though it is certain that some would become valueless from exposure, there should be some trace of a large proportion. Since the bricks were made there have been three officers, (J. McAlpine, Esq., Capt. H. Smalley, R.E., and Lieut. D. McN. Campbell, R.E.,) in the Range, and in immediate charge of the materials—1 Supervisor, (S. Shembhulingam Pantulu,) 3 Overseers, (P. Seshaya Pantulu, A. M. Varadarazulu Naidu now in Nellore District, and T. Raghavulu Naidu,) and 1 Delta Superintendent (K. Vencata Subaraw Pantulu). The transfer certificates show

that the materials taken over were all right, but one Overseer\* (who was the longest in charge) stated that to the best of his recollection a number of bricks were used on another work. The accounts of this work, however, do not show that this is the case, but I think it likely, judging from circumstances that have come to my notice of late, that bricks were taken for some other purpose and their value not recovered, though I cannot trace them. Either this has happened or the bricks have been stolen, which is hardly credible, while watchers have been maintained; but it is almost certain that some of the transfer certificates were given improperly, the materials not actually having been counted or measured. I shall take measures to prevent such recurrences in future, but in the present case the transfers having all occurred before I joined the district, I am unable to blame any one in particular.

Valueless.  
Destroyed by rains.  
Of this, 290 candies have been washed away by the freshes of Kistna, and 50 candies are now remaining valueless and unfit for use.

Destroyed by white-ants and consequently the 15½ cubic feet is less.

May be considered as loss to work.

CAMP AT PONNUR,  
25th November 1873.

CAMP AT PONNUR,  
25th November 1873.

(Signed) J. O. HASTED, Major, R.E.,  
District Engineer, Kistna.

THERE is no necessity to write off to "Profit and Loss." The work has been charged with the entire expenditure\* and therefore whatever may be realized for materials will go as a credit to Government on account of that expenditure. Credit has already been given to Government to the extent of Rupees 907-4-0 according to the books of this office.

(Signed) T. MOSS,  
Offg. Controller of Public Works Accounts.

No. 18.

ORDER THEREON, 2nd February 1874, No. 241.

ACCOUNT, No. 1.

THE circumstances brought to notice in these papers in connection with the loss incurred on materials collected for the Avanigadda Cutcherry are unsatisfactory; but there seems no alternative at present but to adopt the mode of adjustment sanctioned by the Controller.
