Read the following:-

[22nd June 1881, No. 1,119.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 22nd June 1881.

No. 1,119.

Read—the following Brd.'s Gen. Reg. No. 4,500 of 1881—Letter from W. A. HAPPELL, Esq., Officiating Commissioner of Salt Revenue, to the Secretary to the Board of Revenue, dated Madras, 7th June 1881, No. 4,761:—

SINCE September 1878, the subject of extending salt manufacture in the South Arcot District has been engaging the attention of Mr. Bliss, and the Deputy Commissioner of Salt Revenue, Southern Division, was called on to report upon two sets selected by the Assistant Commissioner,* one to the north of the Pennar river

* 100 Acres in extent.
† 35 do. do.

in the village of Uppalavadi, and the other† to the north of the present Gundalum pans, and noticed by Dr. Ratton in

his report on the factory. Mr. Fawcett while Officiating Deputy Commissioner personally inspected both these sites and reported favorably regarding them. He was requested to submit detailed proposals for carrying out the scheme, but in the absence of a regular survey of the place, it has been found impossible to frame even an approximately fair estimate of the cost, &c. Mr. Rundall proposes, therefore, that an Overseer on Rs. 50 and four Lascars on Rs. 6 each be entertained for one month for taking a series of levels and preparing an estimate for the scheme.

2. There is an old canal much silted up which runs from the Fort St. David back-water past the first site. If the project is taken on hand it will become necessary to clear it out in order to maintain direct water communication with the Cuddalore Depôt. As this canal may eventually merge in the East Coast Canal, the course it ought to take has to be determined and the whole country between Cuddalore Depôt and the site—a distance of $2\frac{1}{2}$ to 3 miles in a straight line—has to be thoroughly surveyed. The Executive Engineer, Captain Smith, reports that recent changes in the Public Works Department prevent him from deputing any subordinate of his for this work. The Deputy Commissioner, in consultation with that officer, recommends that an establishment similar to that above mentioned be entertained for one month to survey the country and prepare estimates.

3. I have the honor to request, therefore, that sanction may be accorded for the entertainment of these two establishments, the cost of which, including sundries, will not exceed Rs. 160.

4. It is of great importance that the quantity of salt manufactured at Cuddalore should be increased. It has been found necessary during some portion of every year to restrict sales, as the demand is always greatly in excess of the supply.

Resolution—

SUBMITTED for the sanction of Government.

(A true Copy and Extract.)

Signed) E. GIBSON,
Acting Secretary.

To the Secretary to Government, Revenue Department.
Copy to the Commissioner of Salt Revenue.
