With reference to B.O. of 17th Sept 80. I have the
honour to acknowledge
and an estimate amounting
to £1000 for the improvement
of Eccles Church.
I cannot disguise the fact
that the proportions of
general arrangements are
quite satisfactory as they
might be. but the funds
being limited, the cost
materials of the old building
have to be added as far as
possible and for a limited
read and as some of the
existing structure there
has to be added, and
as the work of the

of the same in the estimate. I have
 not similar material may be found
 all through.
 which has been obtained for
 taking down &
 the existing roof and
 it may be possible that when it
 is removed a sandstone
 will require to be removed
 of the roof and I think it possible
 that this cost. although may be
 covered. but would however not
 likely to be more than Rs 500. and I am
 so difficult in making of this extra
 work of timber work which on the
 drawing but they have fixed
 the roof without alterations.
 The alterations are provided
 and improvements carried
 out as far as possible.
 I much regret that a great variety
 of other work has been left out of the
 estimate of the estimate of Rs 1000.

 Church fittings such as mats, seats for the
