Read the following paper:—

No. 17. From F. N. THOROWGOOD, Esq., M. Inst. C.E., Superintendent, Madras Harbour Works, to the Secretary to Government, Public Works Department, dated Madras, 26th July 1881, No. 30 W.

I AM now able to state precisely what staff I shall have to keep up on board the steamers *Hobart* and *Salisbury* for purposes of screwing down the moorings, and I regret that it is larger than I hoped would suffice.

2. In the first place I find that both vessels are required for the work, as one vessel alone is so unsteady that it would be dangerous to work on board while handling the heavy tackle. And in the second place the screws and chains are so very cumbersome and the management of the fastenings of the vessels requires such constant attention that I must increase the number of lascars on board.

3. I therefore ask for sanction to the following establishment which serves for both vessels:—

	RS.
1 Commander, Mr. A. C. Berlie	280 as before.
2 Syrangas on	25 each.
4 Firemen on	22 each.
12 Lascars on	13 each.
1 Cook and Sailor	16
1 Bandary	10

The men will be articulated and will serve as if afloat.

4. I ask for sanction for this for twelve months, but will only articulate the men for six months.

No. 18. ORDER THEREON, 1st August 1881, No. 1,896 W.

SANCTIONED, as proposed by the Superintendent, Madras Harbour Works, whose assurance as to the necessity for an establishment on this scale is accepted.
