

Office of the Director of P. I.
Public Instruction

Madras 15 August 1881

No. 329

From

A. B. Greig Esq. M. A.

Director of Public Instruction
Madras

To.

The Chief Secretary
to Government
Fort St. George

Sir

In 1879 the Government School at
Sathiamangalam was transferred to Marun
owing to the unpopularity of the masters and
the consequent failure of the school.

2. On the suggestion of the Inspector
of Schools 6th Division Colonel Macdonald
obtained the sanction of Government for
the erection of a shed at a charge not
exceeding Rs 2000. and for the rent of a
building at Rs 10 per month (pending the
erection of the shed). No action was

taken

Letter by this Department towards the
erection of the Shed till March 1880 when
it was found that the people who had
been hitherto against the continuance
of the Government School, were then in
favor of it and willing to support it.
The Inspector having first ascertained
the wishes of Municipal Commission of
Harur, proposed to draw the Sum of Rs 200
Sanctioned for the erection of the Shed,
and to hand it over to the commissioners
on condition that they employed it in
erection of a building in which sufficient
accommodation should be provided
for the Government School. These
proposals were sanctioned by Govern-
ment and the Sum was paid to the
Credit of the Municipality. Subsequently
it was brought to notice that the
Municipal Commission did not accede
to these proposals. The Sum was con-
sequently repaid into the Treasury to
the Credit of Government. No Shed
has been erected, and the School
still continues to be held in a
building rented for Rs 10 per Mensem

S. Sw

3. In June last the Executive
Engineer of Coimbatore Division having
certified that two public buildings, viz., the
D. P. W. Range office and the over-seer's Shed
are available for School purposes at Harur,
the Accountant General informed me
that no further charge would be passed
on account of the house-rent of the
School.

4. In these circumstances I think
it advisable to occupy one of the buildings
mentioned by the Executive Engineer,
and not to incur any expenditure on
the erection of a Shed, more especially as
the continuance of the School in Harur
is not assured. Of the two buildings,
the Range office seems to be much better
suited for the purposes of a School than
the other; and the Executive Engineer
states that it is available for use as a
School, or for any Government purposes.

I have therefore the honor to
request that you will be so good as to
obtain the Sanction of Government
to make over the building in
thorough

thorough repair to this department
for School purposes from the 1st September
next; and that the Accountant
General may be authorized to with-
draw his detachment up to that
date.

M^l ^{final}
