SUPERINTENDING ENGINEER'S OFFICE,

MADRAS,

Chepauk, 14th Jan'y 1881..

From

THE SUPERINTENDING ENGINEER,

1ST CIRCLE,

To

THE Chief Engineer

P. W. D.

(Madras.)

SIR,

Enclosures.

I have the honour to request that sanction may be given to the entertainment of an impassioned candidate as acting Clerk on Rs. 25 in the Division Office at Vijayapattanam, while the permanent incumbent is absent on leave for 5 months from November 1880.

A paper candidate was not procurable for a short period and the Executive Engineer has made the acting appointment in anticipation of sanction.

IENT.

No. 227

From

The Local Fund Engineer
Madura Circle

To

The Vice President
Local Fund Board,
Madura

Sir

Your mis no. 475 of the 18th and
copy of the 3rd Circle, Superintending
Engineer's No. 888 of the 11th ultimo.

2. The famine stones referred to
are scattered about road no 8 Porunday
Tandy near the village of Saurangadu
and were carefully measured by my
orders by Mr. Local Fund Officer
Woodbridge and reported to be only 555
cubic yards vide the comparative state-
ment which accompanied my letter no 94 of
the 15th June 1880. The total normal value
thereof is Rs 225-7-6 at the rate of 6 annas
and six pice per cubic yard which the over-
-saw allows for collecting, breaking and
stocking. But as credited by the Officer
in charge of the Lake Madura Division
in the stock accounts the value of these
stones as stated by the Superintending
Engineer

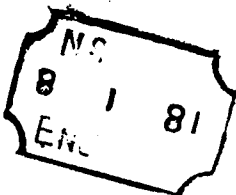

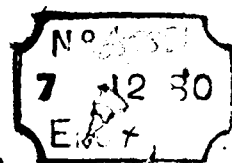

Engineer comes to Rs 471-11-1, at annas 13 and price $7\frac{13}{32}$ per cubic yard by Rs 624-7-6 and hence an overpayment of Rs 246-3-7 would be made by the Board should they take the material at the price put on it by the P.W.D; moreover a further sum would have to be spent hereafter on account of cartage when the material is distributed to the different miles of the road for it was never intended that it should all be used on the place where it now lies.

3. Further the material cannot be paid for out of the allotment for this road for this year as it is already insufficient to keep it in the order that I could wish and there are no other sources from which any surrender can be proposed. I, therefore, suggest that the account may be adjusted in the next Official year. PW 2190/8

PROCEEDINGS OF THE LOCAL FUND BOARD *Madura* CIRCLE,
MADURA DISTRICT, dated 15 November 1880

PROCEEDINGS No. 188 of 1880

Letter from the Superintending Engineer Trichinopoly No 880 T.C dated 11th October 1880, requesting that broken stone or stone jelly stored at a place called Avarungadu near Shevagaunga may be taken over by the Local Fund Board at the value at which it stands in the Accounts of that Department.

Also letter from the Local Fund Engineer dated 2nd November 1880 No 227 reporting that the materials in question have been measured and found to be only 555 cyds, costing Rs 471-11-1 and that the materials cannot be taken over during the current year as funds are insufficient for payment of the value thereof.

Resolved that the Local Fund Board are not in a position to take on the materials. Copy of L. F. Engineer's letter will be sent to the Superintending Engineer

B. B.

the material was collected; but as all the Roads in Madura have been transferred to the Local Fund Boards, this Department was unable to make the necessary adjustment of the materials in question. I therefore requested the President of the Local Fund Boards, Madura to take over the stone at its value according to the accounts of this Department, but he declines to do so vide his letter No 661 of the 23rd November 1880 and its enclosures therein enclosed for your information & return.

4. I also forward herewith a copy of the Completion Report sent to the Examiner on the 12th February 1878 for the collection of the materials, from which it will be seen that no materials were actually taken over by this Department; but that the sum of Rs 624.7.6 debited to the stock accounts of the late Madura Division was the value at normal rates of the materials collected by Famine coolies.

5. It is manifestly useless to retain that stone in our stock account as there is no probability of its ever being made use of and its value charged

charged to any work. Unless the materials in question are taken over and paid for by the Local Fund Board, this Department cannot make the necessary adjustments as requested by the Examiner. Under these circumstances, I request early orders may be passed as to the manner in which the adjustment required by the Examiner is to be effected.

To No 15 N.

For remarks as to
the adjustment of the
excess value. There
seems to be no specific
work against which
the amount is directly
chargeable.

7/1/81.

No 976
To H. 14/1/81

Under the circumstances brought to
notice it would be as well to make the
material over to the Local Fund Board at
their own valuation and write the Balance
off to "Profit and Loss"

2. The stone as borne in the Stock Return
is 733 $\frac{3}{4}$ C. yards. Costing Rs 624-7-6, and the
valuation, as assigned by the Local Fund
Engineer, in his No 227 dated 22 November,
is Rs 225-7-6 for 555 C. yards (which he
reports to be the exact quantity at site
on measurement); so that the charge
to "Profit and Loss" would be Rs 399/-
The sale of the stone to the Local Fund
Board cannot, it is presumed, from the
Correspondence, be effected until next
Official year.
