Read the following paper :—

No. 21. From Captain G. F. L. MARSHALL, R.E., Assistant Secretary to the Government of India, Public Works Department, (Civil Works—Telegraph,) to the Secretary to the Government of Madras, Public Works Department, dated Simla, 19th August 1881, No. 302 T.

I AM directed to forward copy of the accompanying despatch from the Right Honorable the Secretary of State, No. 22 T., dated 21st July 1881, for information, with the request that the Government of India may be favored with the views of His Excellency the Governor as to what is desirable to meet the convenience of the public in the matter of telegraphic communication in the districts referred to.

2. Reference is invited to the proposals of the Director-General of Telegraphs on the subject, which he has been instructed to lay before the Government of Madras.

From the Secretary of State for India, to his Excellency the Most Honorable the Governor-General of India in Council, dated India Office, London, 21st July 1881, Telegraph No. 22.

IT has been represented to me that the districts in which attempts are now being made to develop a gold mining industry are not supplied with the means of telegraphic communication, and that inconvenience is thereby occasioned to those engaged in this pursuit.

2. It is a matter for your consideration whether the circumstances are such as would justify the construction of a line and the maintenance of the establishments required for working it, either as a convenience which the communities in the districts in question have a fair right to expect from the Government, or as a work likely to realize earnings which will more than cover interest on the outlay; but I request your early attention to the subject, and desire that whatever you may find necessary to be done may be ordered without any unnecessary delay.

No. 22. ORDER THEREON, 5th September 1881, No. 2,190 W.

ORDERED that the following letter be sent to the Government of India, and that the Secretary of State be furnished with copies of Proceedings on the subject of the extension of the line of telegraph to the Wynaad Gold Fields :—

(Here enter No. 2,191 W., dated 5th September 1881.)

2. Copies of Proceedings in regard to the repair of roads in the Wynaad will also be supplied to the Home Government by the Financial Department.
