Marine Department,

Sir,

I have the honor to acknowledge the receipt of G.O. Marine No. 391, dated August 12th 1887, communicating G.O. P.W. Department No. 1883 W, dated 1st idem, for report, and to inform you that the breech Milage gap not being within the limits of the port of bockin, the cost of maintenance of that work did not appear to be a legitimate charge against the port fund of that port. Port expenditure has, however, been debited against that head, and as the result of critical enquiry into the bockin mechanism by the Chief Engineer and myself has demonstrated that the gap is closed in the interest of the Port of bockin solely, viz for increasing the steam on the bockin bar, I have no objection to the charge being one against Port
