Read the following paper :—

No. 111. Circular by the Chief Engineer, Public Works Department, dated 30th August 1881, No. 2,010.

No. 111-A. ORDER THEREON, 15th September 1881, No. 2,275 W.

In this Circular the necessity for passing the examinations prescribed for promotion to First Grade Assistant Engineer was pointed out in view to the vacancies which the revised scale of establishment will create if finally approved. The Government have now been pleased to allow three months' grace from date of sanction of this revised scale within which unpassed men may qualify. At the expiration of this period promotions will be made to vacancies in the order in which the required examinations are passed.

2. Those who have already passed the requisite examinations will, however, receive their promotion immediately on sanction to the revised scale being received, and will thenceforward take precedence in the First Grade of all men of the same year who have not so qualified.

3. Among those who will receive immediate promotion is N. Ruthnasabapathy Pillay, who will be placed at the bottom of the First Grade during the three months of grace, at the expiration of which he will take rank above all those not then qualified for promotion.

For order

The question raised
in the annexed Office
note by Messrs Pennycook
calls for the decision of
Government

It is quite true that
the thirteen Officers
affected have had
constant warning, and
fully deserve to be
passed over in their
promotion, at the
same time I think it
would on the whole be
advisable to avoid
if possible such a
wholesale suppression,
as might lead in
future to bad feeling
among the members
of the Department
It thus appears to

now sufficient to
be present to rule
that no Officer shall
in consequence enter the
rules be promoted to
12 Grade A.E. till he
has passed both the
prescribed examination
but that the vacancy
which it appears
probable will soon
come to be filled up
will be kept open
for 3 months to allow
unpassed men to
qualify excepting
in so far as concerns
Mr G B Lambert and
H Rutten-Labatt
Pilly who will re-
ceive promotion to
12 Grade so soon as
the sanction of the
S.D. may be received
The first named
(Mr. Lambert) will be
placed senior of

Also Mr. Boid
and Mr. Mink

his batch &c. above
Mr. Lusher, and the
later placed last
of the 12 Grade asst.
Engineers ²²⁷⁵/₃

So far as I am able
to judge this will
be a perfectly fair
temporary settlement of
the difficulty and
sufficiently show the
unpassed Officers that
Government is determined
to have the rules
carried into

After the 3 months
space has passed the
Officers might be pro-
moted in the order of
the dates on which they

ination

OFFICE NOTE.

To

W

The enclosed circular
has been issued with
regard to the examination
regiment the 1st and 3rd
Assistant Engineers of
the 2nd grade previous
to promotion to 1st grade.
It was considered ad-
visable to issue it at
once was to give the
officers concerned the
longest possible warning,
and it has therefore
been worded so as to
leave it open to present

what the rule or not
they think proper -

Of the eleven officers
who have been promoted, many have
been expected to fall, ~~these~~
Messrs Birch, Evans and ^(a) B. & Co
Hammon and J. M. Ham-
mond neither the remuneration
nor the prospect is commensurate,
one, Mr de Longue, has
joined the service but
not the latter, and ~~the~~
(Messrs) Barker, Messrs Hammon
the latter on -

The twelfth on the list
Mr Young has joined the
latter, the thirteenth, Mr
Lambert, Mr James H. H.,
and the remaining officers
of the grade have joined
neither, with the exception
of Nathaniel B. J. J. J.
as is the junior on
the list -

225
I remain very doubtful
even for the officers
concerned can reasonably
expect vacancies to be
kept open for them after
all the warnings they
have had, and I
should be disposed to
recommend the immediate
promotion (on the oc-
currence of the vacancies)
of those officers who
have joined, being
those who are then
unprejudiced to take
their chance of future
vacancies -

Mr Lambert belongs
to the same grade as
Messrs Barker, Hammon
&c. and he should
certainly go over their

tion of the revised

heads if they do not
qualify by the time
the rules of the G. I.
I. are received.
