No. 174. Endorsement of the Acting Secretary to Government, Military Department, dated 22nd September 1881, No. 5,087.

From Lieutenant-Colonel R. C. STEWART, Agent for Remounts, to the Secretary to Government, Military Department, dated Hosúr, 17th September 1881, No. 534.—Through the Controller of Military Accounts.

I HAVE the honor to request you to bring to the notice of the Government the desirability of purchasing the houses of the subordinates at this Depôt.

2. These houses were built as occasion required after the establishment of the Depôt on this spot, and they have been handed down from one subordinate to another as retirements have taken place; the succeeding subordinate paying to the one about to retire the value of the house.

3. To this system there is a grave objection in that it necessitates a man plunging several hundreds of rupees into debt on his first arrival, from which even with strict economy it takes him years to extricate himself.

4. There are five subordinates as per margin at this Depôt occupying houses purchased by themselves, and I would suggest, for the consideration of Government, that these houses be valued by the Public Works Department, and the valuation given to the owners who should in future become liable for the house-rent of the rank they hold.

Two Conductors.
One Sub-Conductor.
One Staff-Sergeant.
One Farrier-Major.

5. I have ascertained from the men themselves that they are willing to accept whatever valuation may be put upon the houses by the Department of Public Works.

6. The Government has lately purchased the Agent's residence, and it would seem desirable to take over these men's houses also which are built on land belonging to the Depôt.

C.

Forwarded.—No report from this office appears called for with reference to Order of Government No. 3,970 of 24th June 1880, and subsequent orders, wherein a similar application was disposed of by the Revenue and Public Works Departments.

Sir

I have the honor to request you to bring to the notice of the Government the desirability of purchasing the houses of the Subordinates at this Depôt.

These houses were built as occasion required after the Establishment of the Depôt on this spot, and they have been handed down from one Subordinate to another as retirements have taken place; the succeeding Subordinate paying to the one about to retire the value of the house.

To this System there is a grave objection in that it necessitates a man plunging several hundreds of rupees into

into debt on his first arrival, from which even with strict economy it takes him years to extricate himself.

There are five subordinates — as per margin at this Depôt occupying houses purchased by themselves and I would suggest for the consideration — of Government that these houses be valued by the P.W.D. and the valuation given to the owners who should in future become liable for the house rent of the rank they hold.

2. Conductors.
1. Subconductor.
1. Staff Sergeant.
1. Farrier-Major

I have ascertained from the men themselves that they are willing to accept whatever valuation may be put upon the houses by the Department of Public Works.

The Government has lately purchased the Agent's residence and it would seem desirable to take over these minor houses also which are built on land belonging to the Depôt.

I have the honor &c

Sir

Your most obedient Servant.
