Read the following papers :—

No. 289. From Major J. N. HUNTER, R.E., District Engineer, Salem, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Salem, 25th November 1874, No. 163.

WITH reference to paragraph 5 of G.O., No. 3,025, dated 16th December 1873, I have the honor to forward, for the sanction of Government and for entry in the Budget of 1875-76, an estimate of Rupees 26,600 accompanied by plans and specification for constructing a Taluq Cutcherry at Darampoory.

1 Site Plan.
1 Abstract Estimate.
1 Specification.

2. The room for a Post Office was omitted as per G.O., No. 1,709, dated 9th October 1874, in the Financial Department, as there already exists an Imperial Post Office at that station.

No. 290. From Major J. N. HUNTER, R.E., District Engineer, Salem, to Lieut.-Colonel J. MULLINS, R.E., Officiating Secretary to Government, Public Works Department, dated Salem, 14th July 1875, No. 53.

WITH reference to your memorandum, No. 144, dated 5th February last, I have the honor to forward copy of a letter from the Officer in charge of Oossoor Range, furnishing the required explanation on the several points therein referred to in connection with the Darampoory Taluq Cutcherry.

1 Estimate (Abstract).
1 Specification.
1 Copy of Range Officer's letter.
1 Copy of detail data for terrace.

2. Having no plans of the Cutcherry with me, I am unable to include in the estimate the cost of compound wall, well, and tiled drain, noticed in paragraph 24 of the Range Officer's letter.

From W. C. S. WEST, Esq., Officer in charge of No. 2 or Oossoor Range, Salem District, to Major J. N. HUNTER, R.E., District Engineer, Salem, dated Oossoor, 23rd March 1875, No. 2,053.

I HAVE the honor, with reference to your No. 952, dated 12th ultimo, endorsement on No. 144, dated 5th idem, from the Under Secretary to Government, to submit the following explanation.

2. The great differences in the earthwork and masonry foundations are owing to a greater depth of foundations having been allowed for the Darampoory Taluq Cutcherry, so that they may rest on firm soil, the site being made earth of the glacis of the Fort. The present foundations will rest on gravel. I further beg to invite your attention to the correspondence marginally noted, and in the latter part of Colonel Foord's letter he suggests that "the foundations will probably have to be taken through the made-earth of the glacis into the solid ground."

Your endorsement, No. 483, of the 4th October 1873, on the Inspecting Engineer for Civil and Military Buildings, No. 1,226, of 30th September 1873, and my No. 1,013, dated 12th December 1873, remarks on site No. 2.

3. I have estimated for flat and circular archwork separately, as the rates for these works are higher than for brickwork.

4. In flooring 8-inch square bricks a deduction is made for the Post Office-room, which has been struck out, as my figures were for forty-six squares.

5. On the reverse of page 12 of my detailed estimate, the excess in flooring with asphalte is accounted for in detail. I have included the record-room to be asphalted, so as to keep any white-ants which may come up the walls from destroying the records; also, as the floor will be made use of frequently, nothing else would stand the wear and tear better.

6. The discrepancies in plastering and pointing of my estimate are under the standard estimate, and is in consequence of the Post Office-room having been struck out.

7. With regard to the rate for terracing, I enclose a detailed data, and beg to state that I have taken into consideration that firewood (which will be largely used for burning bricks, tiles, &c.,) will have to be carted from 20 to 25 miles, this will also affect the rate for masonry.

8. In the roofing with flat and pantiles, &c., I have included the teakwood rafters and teak reepers in the rate for roofing; the discrepancy is due to the Post Office-room having been struck out.

9. Cut-stone work being in excess of the standard estimate is due to cut-stone steps for turret, stones under trusses and all the outer edges of doors having been provided for under this head, besides the coping of the basement. If the Post Office-room had not been struck out, this item would have been much more.

10. The discrepancy with regard to honey-comb work is trifling and unimportant; it is ·85 square, and not 85 squares as written in the statement.

11. The excess under cornice and dentil work is due to a provision having been made to work mouldings, cornice, and dentil work around all archways, and semi-circular at top doorways on both sides, and the exterior and interior of all the rooms as is shown in the standard plan, and on the reverse of page 8 of my detailed estimate the details are given.

12. The excess of wrought iron work over that in the standard estimate is due to iron bars proposed to be placed in the peep-holes, so that an entrance may not be effected, the peep-holes being 1 foot broad.

13. The square feet of doors, although separately divided by me in detail for the purpose of the different rates I had estimated the work to be done, are as under :—

	Standard Estimate. Sq. feet.	My Estimate. Sq. feet.
	192	150
	917	276
		645
Total ...	1,109	43
		Total... 1,114

which correspond very nearly; but, as the Post Office-room has been struck out, my estimate will yet be in excess, but not very much; this I can explain by having provided for two doors to the turret, so that the record-room may be securely kept shut and not left open for any one to go into at pleasure.

14. The great difference between the teakwood work is due to the trusses having been estimated for separately, and that the whole of the common rafters are included in the rate for roofing.

15. The discrepancies in windows, ventilators, fixed venetians, painting and zinc, and shutting vallies are very trifling, which will hardly cause any difference in the working out of the estimate.

16. The wood-oiling is provided for all rafters, trusses, purlins, and ridge-poles, &c., which does not seem to have been provided for in the standard estimate, although I think it will be admitted that such would be necessary.

17. The trusses, as I said before, are estimated for separately; consequently they are shown in lump sums.

Proceedings of the Madras Government, Public Works Department,
13*th November* 1875.

18. Lightning conductors and bands, &c., being a new item which was recently ordered to be attended to, this is an addition of mine which, I think, requires no further explanation.

19. Stones under trusses are included in cut-stone work as stated above.

20. Barge boards and finial for the entrance are entered under the sub-head of teakwood work.

21. I have left out the tiled drain under circumstances as stated below. The Government order, No. 2,906, of 16th November 1871, regarding tiled drains for Taluq Cutcherries was received by Mr. Paynter on the 15th December 1871; I did not therefore know of this or noticed it till lately, and was not aware that it should have been provided for.

22. Spiral stairs of cut-stone is included separately under cut-stone work.

23. The other items of excess in ryots' shed, jail cook-room, jail latrine and public latrine are due to high rates which will have to be paid for bricks, tiles, and country wood, as firewood and country wood will have to be carted from a distance of from 20 to 25 miles.

24. I have not included the compound wall, gate, and well, nor the tiled drain for this, as well as the Kristnagherry Taluq Cutcherry, and is an oversight of mine, for which I beg to be excused through pressure of office work. And, as I have not the plans by me, I beg these works may be entered in the plans and estimates in your office, if you think that they are necessary at the following rates:—

Compound wall of brick in chunam and plastered with two coats of chunam according to the standard design with gate and turnstyle, 4 Rupees a running foot. The lengths will be according to the plan to be drawn in the site plan.

Tiled drain with 4 inches concrete and 9 inches tiles laid in mortar and finely pointed, as per standard plan, 5 Annas a running foot. The measurement for this also I am unable to give, as I have not the plans by me; these measurements can be had from the plan for the main building.

25. In conclusion, I beg to state that I had very carefully gone through the whole of the details of the estimate myself before it was submitted, and I have again very carefully compared the statement, together with the Under Secretary's remarks, with my detailed estimate, and cannot find that anything has been entered in excess or less than that which will be required to complete the work, excepting what I have stated to have been left out by mistake. Moreover, I have no standard revised estimate showing the quantities in the second column of Major deScott's statement. I do not think the Government order circulating this revised standard estimate was circulated to me; the only Government orders I have on the subject are as under :—

No. 2,791, dated 1st September 1868, estimate for Taluq Cutcherries.

No. 1,366, of 22nd May 1874, estimate for Taluq Cutcherries.

The abstracts in these do not agree with the above revised standard estimate, excepting five or six items in the latter, and I think this is not the estimate referred to.

1 Detailed Estimate.
1 Abstract do.
1 Specification Report.
1 Comparative Statement.
1 Building data.
1 Do. from the Oossoor Range.

26. I beg to return the enclosures which accompanied the above-mentioned memorandum under reply.

No. 291. From the District Engineer, Salem, dated 13th October 1875, No. 90.

No. 292. Order thereon, 13th November 1875, No. 3,236.

CIVIL WORKS, No. 20-A.

The estimate for a Taluq Cutcherry at Dharampoory, as submitted by the District Engineer, amounts to Rs. 26,600,

but additional provision for a gate, boundary hedge, and tiled drain which are necessary raises it to Rupees 27,050.

2. The rates for some of the items are high, but they are accounted for by the Range Officer, and the exceptional depth to which it is shown to be necessary to sink the foundations is a further cause of expense.

3. The estimate as revised is sanctioned, and the work will be included in the Budget for 1876-77.

No. 144. ORDER THEREON, 27th January 1881, No. 224 W.

THE Financial Department have assigned to the Public Works Department the following sums from Provincial Funds for 1881-82 :—

	RS.
1. For Public Works under Provincial	13,10,608
2. For Irrigation and Navigation under Provincial	3,27,972
	16,38,580

2. The following distribution is made of the sum of Rs. 13,10,608 assigned under the first head :—

	RS.	
Original Works.		
Civil Buildings	2,53,334	
Communications	95,000	
Miscellaneous Public Improvements including the refund to extraordinary grant on account of the Madras Water Supply Project	1,00,000	
		4,48,334
Repairs.		
Civil Buildings	64,175	
Communications	29,053	
Miscellaneous Public Improvements	2,000	
		95,228
Establishment		* 6,46,599
Tools and Plant		27,962
Suspense		...
Reserve at the disposal of Government		92,485
Total ...		13,10,608

3. The sum of Rs. 3,27,972 assigned for Irrigation and Navigation under Provincial comprises the following items :—

	RS.
Original Works	1,65,972
Repairs	90,000
Establishment	65,000
Tools and Plant	7,000
Total ...	3,27,972

4. The Provincial grant-in-aid of Rs. 1,25,000 alluded to in the above memorandum will not appear in the Provincial Public Works Budget Estimate under the orders quoted in the margin. The allotment of Rs. 30,470 for the ghât roads on the Nílgiris, under G.O., No. 3,443-A.W., of 23rd October 1880, should therefore be made by the Financial Department from the above grant of Rs. 1,25,000.

G.O., No. 1,595 W., dated 14th June 1879.
„ „ 2,503 W., „ 3rd October 1879.

5. All sanctioned works have, as in 1880-81, been divided into two classes, A and B, the former comprising works which it has been decided to undertake and for which specific appropriations are made, and the latter including works not as yet provided for, but for which funds will, as far as possible, be made available hereafter, should the necessity for undertaking them be clearly established.

6. It will be distinctly understood that no expenditure whatever is to be incurred on Class B works unless specific appropriations are subsequently made.

* Excludes contributions from other sources.

7. With these remarks the Provincial Budget Estimate for 1881-82 is circulated for the information and guidance of the officers of the department.

8. The Government of India will be addressed on the question of the distribution of establishment charges whereby an undue proportion falls against Provincial.

Provincial Budget Estimate of the Public Works Department for 1881-82.—Passing orders on the —.

Revr dept

№ 646

Proceedings of the Board of Revenue

Dated 11 April 1881

Read the following

№ 833

From The Ag Collector of Salem

To The Secretary to the Board of Revenue

Madras.

Sir,

I have the honour to request the Board to move Government to sanction funds for the construction of a new Taluq Cutcherry at Dharmapury, which I regard as one of the most urgently needed buildings in the district. The want of it was brought prominently

prominently to notice in 1872 and 1873 and after much correspondence plan and Estimate were sanctioned in G.G 13th November 1875 No 3236 P.W.D and the inclusion of the work in the budget for 1876-7 was ordered. Nothing however has since been done, owing I suppose to the famine.

G.G 18 January 1873 No 173 P.W.D
G.G 16 December 1873 No 3025

2. The Estimate amounted to Rs 27050 but from correspondence on record here it appears that after the submission of the Estimate a change of site was agreed on which would cause a Considerable saving. Instead of the glacis of the Fort a site was chosen

N

on the south of the town. The Change was I think in every way expedient.

(3) The old building was reported to be dangerous in 1873 and as the Board may imagine has not improved since. I enclose a plan of it. It is worse than even the old Salem Cutcherry and the Jail accommodation is altogether inadequate. The building and the unsuitableness of it must be well known to the Board's Member. Ag 2nd

4. There is a provision of Rs 9020 for the Construction (not alteration Vide G.G 30th September 1874 No 1831) of a Deputy Tahsildar's (not Tahsildar's) Cutcherry

Cutcherry at Dhalore, under
Class B in the Provincial Public
Works budget of 1881-2. This is a
very desirable work, and its
completion would save Govern-
-ment Rs 60 per annum which
is paid to the Local Fund
Board as rent for the Soldiers'
Shed now used by the Deputy
Tahsildar. But is not at all
so urgently wanted as a cutcherry
at Dharmapuri and if
Government cannot find money
for both works I would suggest
that the allotment for Dhalore
be transferred to Dharma-
-puri and the balance of the
Estimate for the cutcherry then

made

made available at once.

Salem Collector's office,
Salem 31st March 1881

I have to
(signed) H. E. Stokes
Ag Collector

—

Submitted for the favorable
consideration and early orders
of Government.

The Board strongly
support the Collector's recommenda-
tion that the new Taluk Cutcherry
at Darampuri sanctioned
in G.O. 13th November 1875 No 3,326,
be put in hand at once. The
Collector has not at all over-
-stated the urgency of the case.

No. 68. ORDER THEREON, 17th June 1881, No. 1,519 W.

THE papers read above give cover to statements of requirements of Superintending Engineers and Superintendents of Works on account of incomplete works of 1880-81 and of new works sanctioned but not yet commenced and which are recommended for execution in 1881-82.

2. The sum of Rs. 10,000 required for renewing the roofs of the north and south blocks of the old barracks at Poonamallee, has, as recommended by the Superintending Engineer, Second Circle, been provided by transfer from the appropriation made in the budget for the barracks for European troops at Poonamallee subject to the approval of the Government of India. A further sum of Rs. 4,573 has also been transferred from the grant for budget item I to admit of the completion of the undermentioned works which cannot be provided for from the Reserve—

(*a*) Additions and alterations to new hospital at Poonamallee.

(*b*) Additions and alterations to old hospital.

3. Under Provincial it has not been possible to provide for any uncommenced works, the balance under Reserve being only Rs. 38,416, which sum is hardly sufficient to provide for the most emergent incomplete works.

4. The Government fully recognize the importance of carrying out several uncommenced works now brought to notice, but regret that for financial reasons they are compelled to postpone them.

5. The Financial Department will authorise the Accountant-General to place at the disposal of the Public Works Department the sum of Rs. 6,052, required for the following works, from the sum of Rs. 50,000 alluded to in G.O., No. 2,168, dated 22nd November 1880, Financial Department:—

	Rs.
Sub-Registrar's Office at Kumbakónam...	747
District Registrar's Office at Tanjore	4,000
Establishment charges	4,747
Tools and Plant	1,187
	118
Total ...	6,052

By this arrangement the sum of Rs. 13,107 applied for in G.O., No. 366 W., dated 10th February 1881, on account of the Registrar's Office at Tanjore will not be wanted.

6. The Financial Department will further authorise the Accountant-General to place to the credit of the Public Works Department the amounts required from the following sources:—

	Rs.	
Convict Labor Fund	14,874	By transfer to the credit of Provincial Funds.
Cattle Pound Fund	21,837	
Educational Building Fund	5,758	
Port Fund...	4,768	

7. The Revenue Department have already been requested by endorsement No. 1,257 of 20th May 1881 to authorise the Conservator of Forests to place Rs. 11,132 at the disposal of the Executive Engineer, West Coast Division, on account of the Deputy Conservator of Forest's residence at Manantoddy.

8. Column 10 of the annexed statement shows the amount that has been appropriated in 1881-82.

9. It should be distinctly understood that no works other than those for which appropriations are now made should be proceeded with in the absence of the special orders of Government.

10. The attention of officers of the department is called to Rule III under paragraph 1,757 of the Code, from which they will observe that when the amount required to complete a work of a previous year is less than Rs. 500, no appropriation is necessary to cover the unexpended balance in the current year. The statements should not therefore include works of this character. By a little additional exertion towards the close of each financial year, the number of these works should be small.

JUNE.

Nos. 45—68.

Statements of requirements.—Orders on—of Superintending Engineers and Superintendents of Works on account of incomplete works of 1880-81 and of new works sanctioned but not yet commenced and which are recommended for execution in 1881-82.

REVENUE BOARD OFFICE MADRAS.

Proceedings of the Board of Revenue,

Dated 23d September 1881.

No. 8773 Miscellaneous.

READ the following

№ 2410. From the Collector of Salem

To the Secretary to the Board of Revenue, Madras.

Sir,

With reference to Board's Proceedings № 646 dated 11th April 1881, I have the honor to request that the Board will move Government to pass some orders. If the construction of the Dharmapury Cutcherry cannot be undertaken this year, at least the provision for the Sub Magistrate's Cutcherry at Omalur should be utilized. The year is half over

and unless orders are passed soon, both projects must be lost.

Salem Collector's Office,
19th September 1881

I have &c.
(Sd.) H. E. Stokes
Collector.

Submitted to Government in continuation of Board's Proceedings 11th April 1881 No. 646.
