

Sw. Rec. Sept.

[30th September 1881, No. 2,072.]

PROCEEDINGS OF THE BOARD OF REVENUE, dated 30th September 1881.

No. 2,072.

Read—the following letter from W. H. GLENNY, Esq., Collector of Kurnool, to the Secretary to the Board of Revenue.

ENCLOSURES Nos. 1 to 3.—Statements.

Letter—dated 19th August 1881, No. 383.

I HAVE the honor to forward, herewith, the enclosed statements showing progress in the disposal of claims to compensation for lands taken up for Public Works in this district for the half-year ending 30th June last.

2. It will be seen from this statement that 269 persons against 137 in the previous report were paid compensation during the half-year under report, and that at the end of this period 1,930 cases remained for the whole district for which compensation was not as yet paid. This number of pending cases will be found on comparison to exceed that given in the report for the previous half-year by 726, the enormous increase being due to the inclusion in the present statement of the famine cases, omitted from the previous statement as mentioned in paragraph 7 of my letter, No. 197, dated 4th May last. The present statement is believed to include all the pending cases.

3. Out of the 1,930 cases mentioned in the above paragraph, compensation statements for money and land, &c., have since the last report been submitted to Government and the Board, respectively, in an aggregate of 811 cases, as also bills to the Superintending Engineer for countersignature in 180 other cases. Of the remaining 939 cases, 331 are cases in which money compensation, already sanctioned, remained undischarged owing to the absence of the parties entitled to receive it. Measures have been adopted to ensure its payment or recredit to Government, as the case may be, before the close of the current half-year. Statements for money compensation are ready in my office for 396 cases, but I have deferred their submission in the expectation of making the statement complete, as statements for some more similar cases are expected from the Pattikonda Division. Deducting those detailed above, there yet remain 212 cases to be accounted for. These are, in fact, the only cases in which compensation statements have yet to be prepared in my office on the receipt of information from the Divisional offices. For as many as 157 of these, compensation statements were once received from the Pyápali Division, but they had all to be returned for revision. Hence the delay. The necessity for the early submission of compensation statements in all the 212 outstanding cases has been urged upon the Divisional officers from whom the statements are due, and I shall see that statements in all these cases are obtained and submitted from my office as early as practicable.

4. The 180 cases in which bills were forwarded to the Superintending Engineer (*vide* paragraph 3 *supra*) appertain to the Cumbum Division. Two bills for 111 of these cases have recently been received back from the Superintending Engineer duly countersigned, and I have taken steps for the early disbursement of the money involved therein.

5. I beg to add to the enclosures a Talukwar statement, marked A, showing the stages of progress of all the 1,930 cases mentioned in paragraph 2 above.

6. The delay in the submission of the Nandyál Division compensation statements was attributed by the Acting Head Assistant Collector, first, to "the heavy work imposed on Revenue Inspectors in clearing off the long accumulations of Revenue arrears; and, secondly, to the frequent return and resubmission of the statements for correction in different points."

7. I myself however conjecture that the present lamentable state of things is primarily due to the pressure of work involved in winding up famine affairs. This was followed by inexcusable apathy, especially in Nandyál and Sirvel, for which taluks no statements at all were sent up till after I took charge of the district in December last. The Board may rely upon it that since the beginning of this year no exertions have been spared. Subbarayudu, the Cumbum Deputy Collector, has since I saw him in April been specially active in this matter. A good deal was done before his return by the then Tahsildar, Subbarayudu. The Pyápali Deputy Collector's Division is behindhand, but there has been a fair amount of effort there as elsewhere within the last six months.

Resolution—

THE arrears left at the end of the half-year under report are very heavy; but the necessary steps appear to have been taken in most of these cases towards completing payment of the compensation due, and the Board hope that the Collector will be able to submit a satisfactory return for the current half-year.

2. The delay in the transfer of the lands applied for by the Irrigation and Canal Company in 1875 has not been explained. The omission should be supplied.
