GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

23rd November 1881, No. 2922 W.

General.
Establishment.

Read the following paper:—

No. 102-A. From D. C. GORDON, Esq., Examiner of Public Works Accounts, to the Secretary to Government, Public Works Department, dated Madras, 4th November 1881, No. 156 W.

I HAVE the honor to forward herewith a statement showing Establishment charges audited under all heads to end of September 1881, *i.e.*, for the first six months of the current official year.

2. Taking the average of the six months as the total anticipated audits for the seventh month, and the average of the total of Rs. 20,64,000, which represents the cost per annum of the revised scale of establishment for this Presidency sanctioned by the Government of India in letter No. 1250 G., dated 23rd September 1881, as the monthly probable audits during the last five months of the year, the charges during 1881-82 for the entire Public Works Department will amount to about Rs. 17,55,000 as follows:—

Audits for first six months as per statement	...	...	...	Rs. 7,67,158
Anticipated for the seventh month, one-sixth of Rs. 7,67,158	...	...	...	1,27,859
Probable charges for the last five months. Average of cost of revised scale of Public Works Department Establishment which came into force from 1st October 1881, viz., five-twelfths of Rs. 20,64,000.	...	...	...	8,00,000
Total	...	...	...	17,55,017

3. The budget grants under all funds, as modified to end of October 1881, stand as under, viz.:—

Imperial Irrigation	...	...	...	...	Rs. 7,07,818
Provincial do.	...	...	...	...	65,000
Imperial, Military and Other Services	...	...	...	...	1,58,432
Provincial	...	...	...	...	6,62,840
Local, Incorporated	...	...	...	...	66,455
Do. Excluded	...	...	...	...	13,084
Total	...	...	...	...	16,73,629

To this total may be added five-twelfths of the 2½ lakhs per annum promised by Government of India in paragraph 7 of letter No. 681 G., dated 5th May 1881, which will give a grand total of Rs. 17,77,795, and will more than sufficiently cover the total anticipated charges of the year given in the preceding paragraph.

4. From paragraph 9 of Government of India letter of the 23rd September 1881, printed with G.O., No. 2472 W., dated 8th October last, it would appear that no definite assignment of any portion of the 2½ lakhs for the current year has yet been sanctioned, and specific orders will therefore have to be obtained at once in regard to the addition of five-twelfths of this amount, viz., Rs. 1,04,166.

5. If this addition of Rs. 1,04,166 is sanctioned by the Government of India from the general grant for Protective Public Works, there will probably be a saving of about Rs. 20,000* under Establishment, and this sum can be re-appropriated for other purposes; otherwise a re-appropriation of about Rs. 80,000† to establishment will be necessary to cover the anticipated excess over the total of the grants as they stand at present.

6. Soliciting early orders.

No. 966 N.

OFFICE NOTE.

Your letter No. 156 W., dated 4th November 1881.

It is assumed in this letter that the expenditure during the last five months of the official year will be Rs. 8-60 lakhs, being five-twelfths of Rs. 20-64 lakhs, the gross sanction. Seeing that we are not working up to the new scale, the expenditure will not be so great as you assume. Please let me know the corrections which should be made in your figures, taking existing establishment (permanent) as the basis up to the end of the official year.

2. Allowance must of course be made for the Coopers' Hill Engineers expected to join.

7th November 1881.

(Signed) R. H. SANKEY, Col., R.E.,
Chief Engineer, P.W.D.

No. 832.

TAKING the permanent establishment (Engineer and Upper Subordinate) as they stand on this date as the basis of calculating the charges for the last five months of this year, the figures given in my letter, No. 156 W., dated 4th November 1881, will be reduced by about Rs. 60,000, but this reduction can only be taken into account if it is quite certain that none of the officers at present absent on furlough will return to duty, and that no further promotions in the Engineer and Upper Subordinate Establishments will take place during current year.

2. Complete information in regard to office establishment generally, as also in regard to the Special Survey Establishment for the four project divisions, has not yet been received in this office, and therefore actuals have not been taken so far as these establishments are concerned.

17th November 1881.

(Signed) D. C. GORDON,
Examiner of Public Works Accounts.

No. 102-B. ORDER THEREON, 23rd November 1881, No. 2921 W.

It is observed from the papers above recorded that the probable charges for Establishment for the current official year will amount to Rs. 16,95,017, while the contributions to Provincial will (including five-twelfths of 2½ lakhs or Rs. 1,04,166 on account of Protective Works) amount to Rs. 11,14,955, leaving Rs. 5,80,062 to be met

from the Provincial Budget. The actual provision is, however, Rs. 6,62,840. There is thus an excess provision of Rs. 82,778. It is proposed, with the approval of the Government of India, to at once re-appropriate Rs. 60,000 of this amount to works, leaving a margin of Rs. 22,000 to meet such excesses as may arise during the remaining portion of the official year.

2. It is very desirable that early orders should be communicated to admit of the money being utilised, and the Government of India will accordingly be requested to intimate their approval by telegraph.

3. The exact financial position cannot, however, be stated until the final orders of the Government of India have been received on the question now before them in regard to the incidence of the cost of Irrigation Establishments employed on revenue work.
