Military Buildings—Ranges.

With reference to the correspondence closing with your No. 4525, of 22nd August 1881, I am directed to state, for the information of the Governor in Council, that the Government of India, having had under careful consideration the proposals made by the Mysore Government for removing the rifle butts at Bangalore from their present position, have decided, on the recommendation of the Government of Madras, that they shall remain where they are. I am to ask that the measures proposed by the Engineer Officers may be adopted for ensuring the safety of the line of railway contiguous to the range from certain alleged danger during rifle practice, at an estimated cost of about Rs. 2,500. I am accordingly to request that the necessary steps may be taken, in communication with the Resident, for including the land on which the rifle range is situated within cantonment limits.

No. 283. ORDER THEREON, 17th November 1881, No. 6093.

Ordered that the decision of the Government of India be communicated to the Provincial Commander-in-Chief for information, and to the Public Works Department for the necessary action. It is observed that the retention of the present rifle range was recommended by the Madras Army authorities.

2. The Resident in Mysore will be requested to cause the land on which the rifle range at Bangalore is situated to be included within cantonment limits.
