No 2036 dated 3rd Sept^r 1881.

Circular Memo.

If Superintending Engineers are unable to spend the whole of the amounts appropriated for class A. Works in the Provincial Budget for 1881-82, they are requested to report the fact to the Chief Engineer, stating the amounts available for transfer.

2. The Reserve under "Provincial" is exhausted, and it is highly desirable that early steps should be taken for utilizing sums which cannot be spent on the works for which they have been allotted.

3. All sums surrendered under this circular will be credited in the first instance to the Reserve and not transferred directly to other works. It is of course open to Superintending Engineers to submit separately demands for additional allotments from the Reserve.
