

ends "the charges incurred on certain works which are within the limits of the Bellary Municipality, and that he has also charged works which belong to one Circle to another.

There is no information available in this office to enable me to ascertain whether the charge made under works is in excess of normal rates or not, but assuming the rates to be similar to those charged for metal stored along the roads, a subject to which attention is drawn in my letter N. 3913 of 31st September, I am of opinion that the rates are greatly in excess of those for which similar work may be obtained.

It is to be observed that the schedules forwarded by the Examiner give no particulars of the nature of repairs or of the portions of the roads on which repairs are said to have been executed, and it is therefore impossible for the Circle Boards to question their accuracy where the charges are made to the right circle.

The cases included in the list of

of objections have been referred to the office. The schedules have been sent to the Circle Boards for Examination and it is possible that further objections may there be raised. In this case a Supplemental list will be forwarded.

Bellary Collector's Office
dated 28 Sept. 1880 -

I have &c
(Signed) H. A. Sim
Hon. Collector & District

Submitted for the orders of Government in Continuation of the Board's Proceedings dated 23rd October 1880 No 1598.

With regard to the rates charged for the metal stored during the Famine along the Local Fund roads, the President is referred to Board's Proceedings dated 8 Oct. 1880 N. 1478 from which it will be seen that the matter has been submitted for the orders of Government.
