- 1 Plan.
- 1 Statement.
- 1 Copy of Medical Officer's letter.

To

With reference to G.O. No. 1681 W. dated 7<sup>th</sup> July 1881, I have the honor to enclose an estimate of Rs. 5,835 for re-roofing the Infirmary attached to the Monegar Choultry.

2. It was reported in this Office letter No. 1162 of the 29<sup>th</sup> June 1881 that the work had been undertaken on emergency. Upon dismantling the roof of the Surgical Ward—it should be explained that the Choultry is divided into a Medical Ward & a Surgical Ward—the whole of the timber (viz: palmira) <sup>of roof of this latter</sup> was found to be so decayed as to be useless, and further as the Medical Officer in charge suggested

(Copy herewith) on Sanitary grounds the raising of the walls of the wards in question two feet, and the provision of Ventilators therein, all which involve a considerable alteration to the building as originally designed and consequent extra expenditure, the work is being held in abeyance pending the orders of Government. I enclose an estimate in which allowance has been made for all necessary work, including the improvements suggested by the Medical Officer. I enclose a tabular statement showing existing & proposed means of ventilating. Considering that each patient has already over 1000 feet space there would be no reason for raising roof except for purpose of providing ventilation under the eaves.

3. The north wall of the Surgical Wards is considerably inclined outwards, being in one place as much as 9 inches out of the

perpendicular. but as it is well supported by a number of buttresses and there is no appearance of its inclining any further nor of any recent settlement, I do not consider it necessary to take down and rebuild it. But a very small portion of the west end wall will require rebuilding, and the estimate provides for that accordingly. Eleven of the verandah pillars are very much out of the perpendicular and require to be rebuilt. To prevent <sup>any</sup> thrust on the north wall, the new roof is proposed to be a trussed one in lieu of a coupled rafter roof as heretofore; but new palmyrah couples cannot now be obtained.

4. Should the enclosed plan and estimate be approved, I request that the necessary funds may be allotted for the work, as I have no money at my disposal out of the current year's grant for repairs Provincial.

I

I have the honor to be

Sir,

Yours Most Obedt Servt.

W. H. Burton
