To All Superintending Engineers
Superintendent of Works & Executive Engineers
Madras 12 July 1880

Sir
As applications for Pensions and gratuities on behalf of subordinates who have been retired under the general recent reduction of Public Works Establishment are in some cases not being submitted in as complete a state as to admit of their being at once finally disposed of by this office, and as it is highly desirable that all such applications should have the final orders of Government in the Pension Department passed on them on an early date so as to mitigate as much as possible the hardships which the individuals concerned would otherwise be subjected to by delays, I have the honor to request that in the preparation of future applications, particular attention may be paid to the following points, and I shall feel much obliged by your rendering your earnest and hearty co-operation in having these points attended to with due strictness.

Points to be attended to.

- (a). The entries in the Pension or gratuity applications should invariably be made to correspond

of incumbents in inferior grades, and therefore
the verification of any portion of their services can
be by this office except by comparison of the
same with the Regent's Rolls which are some-
times misleading, hence it is requested that in such
the services and claims should be particularly
examined and verified before submission to this
for disposal.

With reference to Section 53 b. P. C. the
of all authorized leave granted to inferior
to should be reckoned as service, and not classed
as qualifying.

A complete list giving the names of all
subordinates on whose behalf applications for
pensions or gratuities have not yet been submitted,
to be at once furnished to this office, and every
effort made to complete as speedily as possible
strict reference to the foregoing remarks all
applications.

A copy of this communication will be
sent to the Chief Engineer and Government in the
War Department for information and for such
action as they may consider necessary.

I have the honor to be,
Sir

Your most obedient servant

(Signed) H. Sen. Carey

HE MAY CONSIDER NECESSARY.

Enc No 3

Copy of letter from the Executive
Superior Vijayapattana Division to the Engineer
P. H. Stewart, Madras No 2644 dated 28th
November 1880.

Referring to your letter No 4905 dated
the 15th instant, I have the honor to
inform you that the pension paper of
Retired Officer H. Subbarama Chari has
been delayed for the following reasons:-

1. On the 25th February 1880 he was
called on to give explanations regarding the
claim of G. Narayanaiah of No 164-117 for
work supposed to have been done at Varaha
left bank and Koppaka Aicut. This he
never brought to the notice of the Sub-
Divisional Officer nor did he give any
explanations to this Office for his not having
done so. The cyclone of December 1878 having
washed away all the work done it is not
possible now to trace the work and the
question is whether the Contractor did any
work at all. Reminders have been sent
him to hasten his explanation but it has
not been received up to date. In the absence
of the explanation it is not possible to report
the circumstances to the Sup^r Engineer or to
arrive at any decision, and on this subject I

beg to refer you to para 3 of your letter No. 158th
of 6th April 1880.

II. On the 4th August 1880 his Service Book
was forwarded him with a request to have
it signed by him in certain places and
returned to this Office. 2 reminders have been
sent him without any effect, without the
Service Book you are aware, the pension appli-
cation cannot be forwarded.

2. On the 2nd October 1880 I wrote and
informed the man that unless he returns
the Service Book and submit the explanation
called for, in about a week, his papers will
be submitted to the Supt. Engineer for disposal.
On the 5th November 1880 he telegraphed to me
as follows: "Your post received will answer
soon" - but nothing has been received up to date.

3. If he at least returns the Service
Book, the pension papers might be sent on,
but without it I do not see how this Office
can submit them.

4. In conclusion I must tell you that
I intend to forward the papers connected
with him to the Supt. Engineer for such
action as that Officer thinks proper to
take when he submits the Service Book
and the explanation called for, and not.
