GOVERNMENT OF MADRAS.
MARINE DEPARTMENT.

4th February 1881, No. 71.

Beacons, &c.

Read the following paper:—

No. 15. From Colonel G. CHESNEY, Secretary to the Government of India, Military (Marine) Department, to the Chief Secretary to Government, dated Fort William, 19th January 1881, No. 190.

With reference to the accompanying copy of a letter* from the Superintendent of Marine Surveys, I am directed to request that, under the orders of the Government of Madras, the necessary instructions may be issued that no flagstaff or fixed beacon should be removed from its original position without previous reference to the Marine Survey Department.

ENCLOSURE No. 1.

From Commander A. D. TAYLOR, late I.N., Superintendent of Marine Surveys to the Government of India, to the Secretary to the Government of India, Military (Marine) Department, dated Calcutta, 13th November 1880, No. 20 (Harbours).

In forwarding my sixth report on False Point Harbour, I have the honor to bring to the notice of the Government of India that whilst at False Point the Port Officer informed me that he had just received orders from the Collector of Cuttack to remove the Hookey Tollah Flagstaff to a position about 200 feet more southerly. I beg to point out that the flagstaff as it stands is the only fixed trigonometrical point at Hookey Tollah, and any change in its position will involve endless trouble hereafter.

2. I would mention a case in point. About forty years ago the Collector of Canara moved the Mangalore Flagstaff to the top of a hill, about one mile north-west of its former site. Now, it happened that Captain Moresby, I.N., had run a meridian distance to the Laccadive Islands from Mangalore in 1827, and the geographical positions of those islands were fixed accordingly. Some twenty years afterwards, I myself was Assistant Surveyor in the *Taptee*, and ran similar meridian distances from Mangalore to those islands in order to connect them with the new trigonometrical survey of the Malabar Coast. My latitudes and longitudes would not agree with Moresby's, and by a mere accident I subsequently discovered the fact that the shifting of the site of the flagstaff was the cause of all the difficulty.

3. I beg that a general warning may be given to the local authorities around the seaboard of India not to move any flagstaff or fixed beacon without reference to this department.

No. 16. ORDER THEREON, 4th February 1881, No. 71.

Communicated to the Board of Revenue, with request that a circular may be issued on the subject to all Collectors.
