Explanation of necessity for modifica-

tions applied for.
Chief Engineer to Circular Memo
No 2191 of 27th September 1880.

In G.O. No 140715 of 16th June 1880
sanctioning the estimate for the
embankment from 46 M to 63 M of
the canal orders were given to
provide funds from the Budget
grant of Rupees 12,000; but as
the grant is not nearly
sufficient to meet the old
claims for compensation
for land, old liabilities, the
completion of the Southern
Canal and to afford an
additional allowance
necessary to meet the repair
of cyclone damages of last
year the further grant is
absolutely necessary.

The purchase of the
Bungalow at Koromandal
was sanctioned and I myself
obtained it for Rupees 2000
which was the very lowest price
the owner would take for it.

OFFICE OF THE SUPERINTENDENT OF WORKS,

BUCKINGHAM CANAL,

Comp. Enmoie 11th October 1880.

From

THE SUPERINTENDENT OF WORKS,

BUCKINGHAM CANAL,

To

THE CHIEF ENGINEER,

PUBLIC WORKS DEPARTMENT,

Madras.

SIR,

Enclosure./

I have the honor to inform you that the collector of Nellore has submitted a Bill for Rupees 8144-9-1 dated 9th June 1880 which I forward herewith for Palmyra and Casuarina Poles, Brushwood, Palmyra leaves &c which were supplied during the Famine to the Buckingham Canal doubtless for putting coolies on the work.

2. In cases where the Wood Overseer holds certificates from Officers or Subordinates of this Department for the supplies required or received they have been submitted, but he represents that he did not

know receipts would be required
and so did not ask for them in
all cases.

3. I have the honor to request
authority to pay the amount of
the Bills to the collector of Vellore
as a debit to Lamine not to the
normal value of the work done
on the canal.

I have the honor to be
Sir

Your most obedient servant
A. Wood. Captain. R.E.
Superintendent of Works
Buckingham Canal.

No. 1795

ENCLOSURE 1.

GOVERNMENT OF MADRAS.
FINANCIAL DEPARTMENT.

23rd July 1880, No. 1426.

Provincial Services.

Read the following papers:—

No. 77. From A. C. TUPP, Esq., Officiating Accountant-General, to the Chief Secretary to Government, dated Ootacamund, 17th July 1880, No. 690-N.

Budget Department.

With reference to your Official Memorandum, No. 1289, dated the 23rd of June 1880, I have the honor to forward a statement showing the adjustments which have still to be made in the final accounts of this office for March 1880, which will reduce the amount at the credit of the Provincial Services Account on the 31st March 1880 from Rs. 13,92,741 as entered in my preliminary account for 1879-80 to Rupees 2,11,327.

2. The Budget Estimate of the Local Government for 1880-81, dated the 20th January 1880, allowed a deduction of Rs. 4 lakhs as a contribution to the Imperial Treasury, the whole to be charged in 1880-81; but of this sum Rs. 2 lakhs will be charged off to Provincial Services in my final accounts for March 1880, so that the real amount to the credit of the Provincial Services Account on the 31st March 1880 may be said to be Rs. 4,11,327, instead of Rs. 2,11,327, as stated in the preceding paragraph.

3. His Grace the Governor in Council will observe from my separate letter to Government in the Revenue Department, No. 664-N, dated the 14th July 1880, on the expenditure and loss of revenue by the last famine, that against the abovementioned balance of Rs. 4,11,327, there is a sum of Rs. 3,78,000 still remaining unadjusted, and which, if not brought on the books of 1879-80, will have to be adjusted in 1880-81.

4. The opening balance for 1880-81 will therefore be diminished by the abovementioned amount, that is to say, from Rs. 4,11,327 as stated in paragraph 2 to Rs. 33,327 only.

5. It will also be observed that in the Budget Estimate for Provincial Services for 1880-81 prepared by Government, the receipts excluding the opening balance amount to Rs. 98,28,130 and the expenditure to Rs. 94,42,810, leaving a surplus of Rs. 3,85,320, but from this a sum of Rs. 88,100 has to be deducted on account of the insufficiency of the provision made under the head of Stationery on account of supplies of Stationery Stores for the use of Public Departments during 1880-81. The net estimated surplus for that year will therefore be Rs. 2,97,220 only.

6. Considering the smallness of this surplus and of the opening balance of Rs. 33,327 mentioned in the preceding paragraph, I do not feel able to recommend the appropriation of any large portion of either of them for incomplete public works for the following reasons.

7. The expenditure on Police and Jails in 1879-80, as far as it can be at present ascertained, amounts to Rs. 37,87,000 and 13,23,000 respectively, while the estimated provision on these accounts for 1880-81 is Rs. 35,00,000 for Police and Rs. 11,80,000 for Jails, and these amounts have been assumed in estimating the foregoing surplus. As there cannot be any absolute certainty as to whether the expenditure on these accounts can be actually kept within the reduced limits fixed by Government, I think it will be well to reserve a margin for these purposes.

8. The charges for printing also will require a small margin as they amounted to Rs. 2,74,000 in 1879-80 against a provision of Rs. 2,62,000 for 1880-81. I do not therefore, under these circumstances, feel able to recommend that the sanction of Government should be given to any further outlay.

9. Lastly, although the Examiner of Public Works Accounts has repeatedly declined to admit in his accounts any further charges on account of the famine, still in the absence of the Supplemental Exchange Accounts which he has yet to render me to complete my annual accounts for 1879-80, I cannot say whether it will be necessary to set aside any amount from the foregoing surplus on this account. A copy of the letter sent to the Examiner on this point is also enclosed for the information of Government.

10. I append a tabular statement which will I think show clearly the present financial position of Provincial Funds. If the Police and Jail Departments spend what they spent last year there will be a deficit of one lakh; if they spend only what they have been estimated to spend there will be a surplus of 3½ lakhs.

ENCLOSURE No. 1.

ENCLOSURE No. 3.

From A. C. TUPP, Esq., Officiating Accountant-General, to the Examiner of Public Works Accounts, dated 9th July 1880, No. J.B.A.—89.

Book Department.

I have the honor to inquire whether any charges on account of famine will be exhibited in your Final Supplemental Exchange Account for March 1880. I require this information to enable me to complete a statement showing the probable amount that will be adjusted in the final accounts for the above month on account of Provincial Services.

2. The favor of an early reply is requested.

No. 78. From A. C. TUPP, Esq., Officiating Accountant-General, to the Chief Secretary to Government, dated Ootacamund, 22nd July 1880, No. 724-N.

Budget Department.

With reference to my letter, No. 690-N, dated the 17th of July 1880, paragraph 9, I have the honor to forward a copy of the letter received from the Examiner of Public

Works Accounts, in reply to the reference made by me, from which it will be observed that no further charges in connection with the famine will occur in the Public Works Exchange Accounts which have as yet to be rendered to me.

2. The estimated balances to the credit of Provincial Services, as given in my letter of the 17th July 1880, do not therefore require any modification on the foregoing account.

ENCLOSURE No. 1.

From Major D. H. TRAIL, R.E., Officiating Examiner of Public Works Accounts, to the Accountant-General, dated Madras, 15th July 1880, No. 422-P.

In reply to your letter, No. J.B.A.—89, dated the 9th July 1880, I have the honor to inform you that no charge on account of famine will be exhibited in my Final Supplemental Accounts for March 1880, the Famine Accounts having already been closed.

Application

Sir,
I have the honor to submit herewith
the accompanying application for increase of
appropriation of funds for the Pottingly Ghat
in this District and to inform you that the
expenditure on the work up to the end of
November last is Rs. 18919 and the balance
therefore available for expenditure is only
Rs. 11081. There are still the following demands
to be met from the grant, which leaves only
a balance of Rs. 6000 available for expenditure.

2000 lbs of Dynamite ordered by you and received during the month of November	4000
Value of Jumpers, Augers, and Wedges ordered to be charged to the rates.....	700 about
Value of 50 barrels of Gun powder.....	Not known
Total about Rs. 5000.	

2. The expenditure on the work during the
last

222
last month had been Rs. 5600 and at that rate the sum available represents only one months work. If further funds be not made available the work will have to be stopped which I do not consider a safe arrangement. It is now the proper working season and the whole work is in its full swing and it is simply ruinous to stop the work at this time.

3. I therefore beg you will strongly support this application and recommend the additional grant of Rs. 10,000 being made available this year.

4. I beg you will inform me whether the work may be gone on with up to the extent of Rs. 4,000 in anticipation of the appropriation of the grant of Rs. 10,000 now applied for. of course in case of further funds being required, I can hold back payments in March and pay them in April 1881.

I have the honor to be

Explanation of necessity for modification of allotments.

The sum now applied for is with reference to Circ. No. 2191 of 27 Sept 80 from the Chief Engineer P.W.D. and is required on account of the following repair work.

Repairs to Govt. House Buildings in the Guindy Park. Estimate No. 9880.

2. The necessity for the present extensive repair is due to the buildings having not been kept in better order.

3. The work was put in hand under instructions from His Grace the Governor in anticipation of sanction and appropriation.

M. M. M. Major, D. C. 15 Oct. 1880. Supd. Engr. P. W. D.

Here enter the head of services.

No. 455 Supg. Engineer's Office, II Circle. Coimbatore, 21 December 1880.

From The Superintending Engineer, Second Circle.

To, The Chief Engineer, P. W. D. Madras.

Sir, In reply to your memo No. 2799 dated 10th December 1880 regarding the great delay in sanctioning the work of Repairs to Guindy House I have the honor to report as follows:

2. In December 1879 the Supg. Engineer late 3rd Circle directed the Executive Engineer to submit an estimate for repairs to Govt. Guindy and at the same time (under orders from His Grace the Governor) he requested that the repairs should be put in hand a great portion of the work chiefly repairs to the main building were

were completed in time for the Governor's visit to Guindy in March and the work was then stopped.

3. The Executive Engineer Mr. Pringle did not forward the Estimate for the repairs that had been completed and for those to be done hereafter until the 9th June 1880 when it was sent the Private Secretary who by order forwarded them to the Chief Engineer who transferred them to this Office. On the 24th July they were sent with instructions to the Executive Engineer.

4. The Executive Engineer Mr. Pringle resubmitted them on the 16th August but did not send with them a Statement of Expenditure that had been called for, this was not received until the 16th September being forwarded by Mr. DeMorgan who had taken over Charge from Mr. Pringle. The Estimates &c. were examined in this Office and sent to the Private Secretary for the Governor's Approval on the

the 30th September, they were returned approved on the 16th Oct^r but ^{not} without the Statements of Expenditure ^{not} this after a Call was received on the 27th Oct^r and the Estimates were at once sanctioned and returned to the Executive Engineer on the 29th Oct^r.

5. In August under instructions from His Grace the Governor sent direct to the Executive Engineer the repairs which had been stopped in March were again put in hand.

As soon as the Estimates were received approved of an application for the necessary funds were made it was sent off on the 15th Oct^r Rs 7500 being applied for no orders have however yet been received on it.

6. The Executive Engineer Mr. Pringle was constantly written to regarding these estimates but I regret to say that the above shews with little or no effect, in a letter he states the following

"I have the honor to say that a good deal of delay was due to an error in which myself and Office equally shared in waiting for estimates that were thought from a remark of Mr. Wiggins to be due after in reality all had been submitted by that Officer." He as you are aware had great difficulties in consequence of the changes in the Department but I must add as I have already reported that I consider Mr. Pingle might have done much more in the Mount Division.

47. I must remark that the Statement of objectionable items for May was received in this Office in August. After the receipt from the Executive Engineer of the Estimates but not the Statement of Expenditure which was daily expected and that for July in Octr. after the Estimate had been sanctioned and funds applied for.

In

by Mr 2191 of the 27 Sept last which
remain undischarged of.

As shown in the above list (with
of 6456 yesterday) the actual balance
of the Provincial Treasury now stands
at £10,877 and there are the
demands of more than five months
of this year to be paid forward to
it would perhaps not be well to
give any of this balance towards
meeting these two requisitions of
the Union he concerned in it as very
- given with regard to 6292 that
Mr. E. has informed that no allot.
ment can be made during the
current year for the works entered
in his list, but that they will
be included ~~in the~~ in the
Budget of 1881-82 & for 6268 the
Sgt. Presidency might be able to
apply later in the year for
additions to his Budget allotments
under Repairs to B. & C. - J. P. 18/10

To. by W.

It does not seem
advisable to appropriate
our small Provincial
balance to any of the
works. It will all be
required to meet petty
demands constantly
arising for expenditure
to which the Govt.
are committed.

P.T.O.

22 Refund of amount withdrawn from Stock
and Grant for increase of Capital and
account of Law Commission for Stock for

23 Travelling allowance for Comptroller
General for 1897-

From the above statement it will be observed
that urgent

demands for Provincial Grants now amount to £2,837 while at
present there are no grants available to meet any part of them.

It is expected that a sum of £12,541 will be shortly made available
from the budget allotment for the Pathology Grant and should the
proposals sent to day to add this sum to the Resources be approved
it will only go a very small way towards meeting the present demands.
As orders have been passed giving the money for items 1, 5 and 6 it is
thought that there will have to be first provided for while some few
of the items such as 16, 17, 18 and 20 might be omitted till the more
urgent demands have been met. For items 13 and 21 no amounts have
been entered as it is not yet reported what sums will be required for
them in the current year. Although £20,000 was the Budget provision
for item 22, perhaps a small sum would suffice for the purpose.

The Capt. of Works, Calcutta would now most probably be in a
position to state very nearly the amount actually required. It is pro-
- bably suggested that a reference be made to obtain this information.

In the Provincial Budget a sum of £28,000 is provided an account
of Landau supplies and £22,837 for Stock and expenditure might
also be ascertained from the Examiner what amount could be made
available for work from these two sources. £7,344/80

To C. C. M. Submitted to day for con.
eration. It will perhaps be

67266
20,000
87,266
270 pounds
3579 33,987

It is necessary to transfer a sum
of about £10,000 to the credit
of the temporary establishment
to provide for demands con-
stantly arising. Also to meet
liabilities already incurred
in the shape of travelling allow-
ances and for the maintenance
of the establishment already sanctioned.

It is doubtful whether the £20,000 will
suffice for these purposes - but no more
can be spared at present.
