

No. 3370

FROM

THE SUPERINTENDENT OF WORKS

CODAVARI DISTRICT.

TO

THE CHIEF ENGINEER P.W. Department
FOR IRRIGATION.

Enclos.

Dowlaiswaram, 11th February 1881.

Desd 14/2/81

SIR,

Further information has shown me that I was wrong in supposing that when water burst into the Coal Shaft at Bhadrachalam it came in at the rate of "630 Gallons a minute", as stated in the margin Para 3 Clause C of my No. 3225. 31st January 1881, it came in at the rate approximately of 200 Gallons a minute.

2. I would take this opportunity of asking for early orders on Para 4 of my No. 2966. 10th January 1881.

I have the honor to be,

Sir,

Your most obedient Servant

C. Swales

Supt of Works Godavari

Compd
J.S.
