Superintending Engineer, 3rd Circle,

To

Col. A. H. Lankey C.B. R.E.
Chief Engineer P.W.D.
Madras.

Sir,

I have the honor to report that the Committee appointed in your Memo. N^o 2357 of 21st October 1880 and N^o 285 of 7th February 1881 examined Messrs Bird and Manson at Bangalore on the 19th Instant.

2. Seventeen questions were put to the Candidates in professional subjects, and ten in the system of accounts; partly orally, and partly answered in writing.

3. Mr Bird obtained a total of 13 1/2 marks for his answers

were, and Mr. Manson 94; out of
a total of 186.

4. Mr. Bird is considered
to have passed; but as Mr. Man-
son obtained but little more
than half the full number of
marks, it is necessary he
should study, and come up for
examination again after six or
nine months.

I have the honor to be

Sir,

Enclosures.

I have the honor to state that there is no proper map of the basin of the Ulsore Tank, Bangalore on which the supply of drinking water to the European Force at that Station entirely depends.

2. In view of the changes that are shortly to take place in connection with the rendition of Mysore, it appears to be advisable to have a proper map of the basin of the Tank in question prepared. as by its means projects ^{that} might be proposed in future to be carried out within the catchment basin affecting the supply, either in quality or quantity, of the Tank could be

readily discussed or considered.

3. In reestablishment of one -
Surveyor, and three Lascars will be
required for 1 1/2 months in connection
with the preparation of the map, I
have nominated an Overseer to under-
-take the Survey, and have autho-
-rized the entertainment of 3 Lascars
at Rs 6 each per mensem. The pay
of the Lascars for 1 1/2 months will
amount of Rs 27. and I request that
this sum may be sanctioned from
the Bridge Grant for temporary
reestablishment.

I have the honor to be,

Sir,

Your Most Obedt. Servant.
