From

THE SUPERINTENDENT,
MADRAS HARBOUR WORKS,

To

Colonel R. A. Sankley C. B. & L.
Secretary to Government, P. W. Dept
Buildings & Roads
Fort Saint George,
MADRAS, 18 December 1880.

SIR,

I have the honor to submit a statement of the Tools used on these works which cannot be accounted for in the return of 'Tools & Plant' for September 30th 1880, in compliance with G. O. A. 2767W of December 1st and A. 2840W of December 8th 1880. —

2. There are only two items in which any great difference exists between numbers as shown in the books and as counted, namely Shovels and Files. The files I think should not be treated as 'Tools & Plant' because, so far as I am aware, when a file is worn out it is useless, and cannot be re-cut in India, as would be the case in England. Consequently

no attempt has been made to keep an accurate account of worn out files, so long as the fact of their being worn out was established. A large number of old files are in use all over the works for various purposes such as scrapers, screw drivers &c. -

3. Shovels, also, are not returned to store when worn out, because they are generally perfectly useless when laid aside.

I have the honor to be

Sir,

Your most obedient servant

J. H. Mowgott. M. Inst. C. E.
