To,

The Chief Engineer

D.P. Works - Madras

Sir,

In G.O. N^o 67 W. dated 12th January 1881 para 2 I am directed to provide for the Forest Rangers house at Chedelat an ordinary trough Latrine as used in the plains in place of well or cess-pool latrine (as ordinarily used on the Hills) proposed. I have the honor to point out that on the Hills at Chedelat and similar places sweepers are not available and the Forest Officer considers the trough Latrine objectionable in this opinion I agree and request leave to build the privy as before proposed.
