To

Sampur

Sir,
With reference to your Memo
dated 24th February 1881 at No. 39
I have the honour to report on
personal inspection that the whole
occupied portions are so in-
tricately interwoven with each
other and are serving between
one and another in an unbroken
length as so many intercommu-
nicating passages that it does
not appear that there are
any superfluous and ruinous
buildings which can be demolish-
ed without inconvenience to the
respective inmates thereof. The
repairs that are now executed
by the P. W. Department are only
executed to such among them
as have been found absolutely
needing repair.

I have &c
