B No 30520 dated 8th Octr 1881

GOVERNMENT OF MADRAS.

MILITARY DEPARTMENT.

2nd December 1881, No. 6387.

Military Bulidings.

Read the following papers :—

No. 13. *Extract from Notes of Inspection of Major H. R. MEAD, R.E., Superintending Engineer, 2nd (new 4th) Circle, of the Malapuram Barracks on the 20th October* 1881.

* * * * * *

Para. 18. With regard to the plans and estimates for the new barracks, the general scheme is good, but some minor alterations are required. A wash-house for the new East block is necessary, and more bath-room accommodation for the West block is required.

19. The recreation shed proposed to be thatched is not required and not advisable; the old beer godown now used as a canteen will make a very good gymnasium; it is 50 feet × 21, all that is required is to take out the doors and windows, and remove the wall to a height of four feet from the basement, having the trusses supported on pillars. The site proposed for the infectious disease ward is not good, it can be built on the ground North-west of the hospital. No orderly room or Commissariat Serjeant's quarters are provided for; this can be done by altering the South end of the North block of the family quarters, which will not hereafter be required,—two quarters being made into an orderly room and one into clerk's room, and the Commissariat Serjeant being given three quarters.

20. A ration shed, twenty feet square, on pillars, to be built North of the racket court close to the road.

21. *Water Supply.*—There are two wells—one close to the barracks used for ablutionary purposes, and one, a square one, used for drinking-water; this last requires alteration, the side walls must be repaired and raised, as, in one place especially, the surface earth falls into the water. Substantial gates, pillars and a door $3\frac{1}{2} \times 5$ feet high to be erected.

22. In the Barrack estimate, a sum of Rs. 500 to be entered for digging a new well, which is much required; site to be settled hereafter.

No. 2519.

The arrangements for repairs, as noted in paras. 1 to 16 of the above report, are approved, and should be carried out without delay.

2. The observation, paras. 18 to 22, will be referred to the Military Department for early decision.

3. The estimates, &c., for new barracks at Malapuram are now under reference to the Superintending Engineer, 2nd (new 4th) Circle.

(By Order.)

FORT ST. GEORGE,
4th November 1881.

(Signed) E. L. HANKIN, Colonel,
Ag. Secretary to Government.

No. 14. *From Brigadier-General H. O'CONNELL, Quartermaster-General, to Colonel E. L. HANKIN, Acting Secretary to Government, Military Department, Fort St. George; dated Bangalore, 22nd November* 1881, *No.* 1768-7839.

In returning reference, No. 5825, dated 4th instant, I have the honor, by order, to state that the Provincial Commander-in-Chief approves of the minor alterations proposed by the Superintending Engineer, No. IV Circle, in the general scheme for the provision of new barracks at Malapuram.

2. The new barracks are urgently required.

No. 15. ORDER THEREON, 2nd December 1881, No. 6387.

The proposals of the Superintending Engineer, 4th Circle, may be adopted.
