KEEP WITH.

No. dated 188 .

Letter No 230 dated November 10th 81 from. S. E. IV circle.

The Superintending Engineer applies for sanction for temporary lascars to assist the officers in charge of the B. Project Division in taking levels of the Baroor Tanks. Under para 118. A. of the P. W. Code such establishment should

Circ: 8-12. 4-10-12

...ld be sanctioned as a minor work, but apart from the fact that owing to all expenditure on the Baroor Tank having been stopped by the Government of India the estimate could not be so sanctioned against the work in this case, it appears to the undersigned to be a dangerous precedent to set in any case. For Project work all establishment should, it is considered, be so treated, and not divided into two parts - one part being sanctioned as establishment proper and the other as a minor work. In other words the establishment of a Project Division should be equal to any duty it may be called upon to undertake - Special temporary sanction being given when necessary, and it is therefore requested that the required sanction of Rs 600 may be given from Provincial.

From

The Superintending Engineer
IV^th Circle, Coimbatore.

To

The Chief Engineer
for Irrigation

Sir.

I have the honor to submit an estimate for Rs. 600 for temporary lascars required to assist the permanent establishment in surveying & levelling the Bavani Project in the B. Project Division and to request early sanction and provision of funds. Funds are applied for under establishment as a special case as no allotment is available for the Project Division under Minor Original Works. If however a grant can be assigned under Minor Original Works for the purpose the charges will of course be met from that grant in accordance with para 118 A of the P. W. Code.

Enclosure 2.
—
Abstract Estes of Rs. 600

2. I have authorized the employment of lascars as the urgency may require in anticipation

anticipation of sanction to the estimate.

I have the honor to be
Sir
Your most obd.t Servt.
