PUBLIC WORKS DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

UNDER date the 14th Decr 1881

Read the following:—

From Superintending

Engineer's Office

S.P. No 24 of 19th Novr 1881.

Rent is sanctioned
at the rate of Rs 50
per mensem for the
house hired as a
Superintending En-
gineer's office.

A design and es-
timate for an office
should be submitted.
The building should
be placed in the
same compound as
the ^{Executive} Superintending En-
gineer's office or
form an addition
to that office.

The Govt. are not
at

in fact to have the
Supt Engineer's and
Ex-Engineer's Office under
one roof for consultative
purposes &c - and this
would not answer if
a dwelling house found
part of the design.

There is no reason to
show why the Supt. Engineer's
Office should not now
be added to the present
Office of the Executive
Engineer in Bellary.

Executive?

To Genl W. H. D. H. D.

with draft in
Approval

Major Perryman
has engaged a house in
the new Sub-Engineers
Office, and thus must
at least till an Office
has been otherwise pro-
-vided be sanctioned

I should doubt whether
Govt would approve
of his proposal to build
a dwelling & Office in
the Sub-Engineers; at
least I know that in
reference to the Govt
I combined building of
the character they an-
-sided it undesirable
to bring private accounts
in contact with Office
In respect of this
it will be obvious reason

No. 24.

Supy Engrs Office 37.
Bellary 19th Nov. 1881.

From:

Major J Perrywick R.E.
Superintending Engr.
3rd Circle.

To,

The Chief Engineer
P. W. D.

Sir,

Madras

I have the honour to
report that I have engaged a building
as an office, and request sanction to the
payment of the rent Rs 50 per month from
the 16th instant.

2. The building though fairly commodi-
ous is very inconveniently situated but
is absolutely the only one available; there
is a great want of house accommodation
at this station, of which the house
owners naturally take full advantage
the most exorbitant rents being de-
manded for houses hardly fit to live in.

3. If Bellary is to remain as it probably will, the head quarters of a Superintending Engineer, a proper office ought certainly to be built, and I would suggest that a dwelling house might advantageously be combined therewith.

4. For, from Rs 24,000 to Rs 25,000, a suitable building might be constructed. Six per cent per annum on this amount would represent a monthly rent of Rs 1206/125. Rs 50 being debited to the Office, the balance would be willingly paid as rent by the Officer concerned.

5. As a measure of economy it might be advisable to combine the Executive Engineer's Office (for which Rs 40 or 50 will have to be paid) with that of the Superintending Engineer, but I do not recommend this, as there are obvious inconveniences in placing more than one office under the same roof with a dwelling house.

6. If permission be granted, plans and estimates can be prepared without loss

of time.

I have the honour to be
Sir
Your most obedt servant.
J. B. Cunningham, Major &
Superintending Engineer
3rd Div.
