MYSORE.

Fort William, February 10, 1881.

SIR,

It has been the custom lately to appoint 90 per cent. of the
passed students of the Royal Indian Engineering College to the 2nd grade of
Assistant Engineers, and 10 per cent to the 3rd grade. In the absence of
any rules on the subject, it has happened that officers appointed 3rd grade
Assistant Engineers in one year have been superseded as 2nd grade
Assistant Engineers by the students of the following year.

2. This needs to be remedied, and I am to state that the Government of
India considers that the students, who are appointed 3rd grade Assistant
Engineers, should be promoted to 2nd grade after a year's service, provided
they have conducted themselves satisfactorily, the test prescribed in P. W.
Code, Chapter II, Section i, para. 17, being passed before promotion to the
1st grade. This order should have retrospective effect.

I have the honor to be,

SIR,

Your most obedient Servant,

A. B. SAMPSON,

Under Secy. to the Govt. of India.

Sir,

Enclosures. 2

I have the honor to invite your attention to the fact- that by an order of the Government of India dated February 10th 1881, herewith, it was decided to promote (with retrospective effect) after one year's service 3rd grade Assistant Engineers to 2nd grade.

2. I beg to represent- that on Oct^r 1st 1875, I was appointed to the P. W. D as Ass^{te} Engineer 3rd grade & that I did not receive my promotion to 2nd grade (permanent) till September 1st 1877. I did, however, get promoted to 2nd grade (temporary) on

about 15th December 1876 from which date
I drew the full pay of the grade. Still
according the above order it would
appear that there is due to me about
two + a half months difference of pay
between the two grades viz from October 1st
to the middle of December 1876. I should
therefore, be much obliged if you would
kindly forward on this letter for the
favorable consideration of Government
