Simla, July 18, 1881.

SIR,

In order to prevent the recurrence of frauds of the kind lately perpetrated in the Lahore Treasury, and with a view to secure greater protection to buildings in which treasure is stored, I am directed to invite attention to Chapter XI, section i, paragraph 10, of the Public Works Code, regarding public buildings, and to point out that the inspection of treasuries should form an important part of the duties of Superintending and Executive Engineers.

2. I am accordingly to request that Public Works officers may be reminded of this portion of their duties, and that they may be instructed, while on inspection, to carefully examine all Government treasuries in their respective charges. The results of such examinations should be communicated, through the usual channels, to Local Governments and Administrations, in all cases in which it is considered that treasuries are not safe as regards the buildings themselves, or the manner in which treasure is stored.

I have the honor to be,

SIR,

Your most obedient Servant,

W. G. CUMMING, Major, R.E.,
Offg. Asst. Secretary to the Govt. of India.
