READ—the following letter from Lieutenant-Colonel JOHN EWING, Officiating Quartermaster-General, to the Secretary to Government, Military Department, dated Ootacamund, 17th April 1882, No. 49/2892.

I am desired by the Commander-in-Chief to represent, for the information of Government, that His Excellency is of opinion that the small Military station of Malapuram in Malabar should be connected with the main electric telegraph system. It is an outpost 30 miles distant from the nearest place whence reinforcements if required could be drawn.

2. During the south-west monsoon the heliograph would be generally useless.

3. His Excellency prefers therefore that it should be connected with other stations by electric telegraph, and will arrange that the telegraph office at Malapuram is worked with Soldier signallers.

Order—dated 21st April 1882, No. 1869, Military.

Transferred to the Public Works Department.

(By Order.)
