Resolution of the Government of India in the Department of Finance and Commerce,
No. 4028, dated 4th November 1881, recorded with G.O., No. 77 W., dated 11th January
1882, on the subject of strong rooms for the storage of coins.

No. 94.

ORDER—dated 28th April 1882, No. 1055 W., Public Works.

The application of the rules laid down by the Government of India for the
storage of coins in strong rooms has led to a proposal for the construction of new
Hazar Treasuries throughout the country. While the Government cannot entertain
a proposal of this character, it is thought that, with a view to safety, the two following
general principles should be put in force in all cases, and the requisite measures will
be taken as soon as possible for carrying them into effect:—

- (1.) All strong rooms should be so exposed in all their parts to the sentry on
duty that no one can enter them without being exposed to view.
- (2.) The roofs or ceilings of such rooms should in all cases consist of solid
terracing.
