Read the following paper:—

No. 41. From Colonel J. BEATTY, R.E., Superintending Engineer, Sixth Circle, to the Chief Engineer, Public Works Department, dated Trichinopoly, 1st December 1881, No. 1503 T.J.

In continuation of my letter No. 1466 T.J., of 26th ultimo, I have the honor to inform you that the work of planting, &c., which you recommended, in clause 3, paragraph 6 of your report printed with G.O., No. 1,356 W., of 30th May 1881, to be carried out under the orders of the Port Officer, has not been begun; and I therefore send an estimate of Rs. 120 prepared by the Executive Engineer for planting up the land face of the sandspit, preserving the plantations, and preventing injury to the groynes and banks during the remainder of the current year. I think it will be found necessary to have this work attended to by the Executive Engineer.

2. With regard to the low revetment* to the boat basin, Captain Smart reports that the least expensive kind of revetment would be with concrete blocks, and that such a revetment would cost Rs. 2,100.

* Paragraph 10 of the report.

3. The coal pavement of the South Indian Railway has been moved back 15 feet, as directed in paragraph 12 of the report.

4. The old palmyra groyne, referred to in paragraph 14 of the report, has not yet been removed, but this may be done at trifling expense when the improvements provided for in the estimate of Rs. 7,585 are in course of execution.

No. 42. ORDER THEREON, 12th December 1881, No. 3080 W.

THE estimate, amounting to Rs. 120, for planting up and watering the land face of the sandspit at Negapatam is sanctioned.

2. The necessary funds will be provided in the Financial Department from Port Funds.

3. This sanction has been registered as Excluded Local (Port Fund) No. 42 W., of 1881-82, and classified as Miscellaneous Public Improvement—Repairs.
