In searching for
the old plans
required by Col.
Mullins for the
preparation of
his technical
history of the
Rishra & Panner
System, which
he is going to under-
take write on
fundamentals, I have
discovered that ^{there}
is a vast mass
of plans huddled
away in one of
the rooms belonging
to the Lithography
Dept., & which a
casual search
shows to contain
some plans required
by Col. Mullins
& many others of

interest & value.
The mass of plans
numbers many
thousands, & ~~for~~ ^{contains}
I believe, of the records
of the old Chief
Engineer's Office.

It would seem right
that they should be
put in order, those
of value being filed,
& those of no value
destroyed. A

draughtsman can
be detailed temporarily
from the Office of
the D. P. Project Divⁿ
for the purpose of
making out a list,
but he will require
the assistance of
two lacans, as the
plans are in a
great mess & very
dirty. I therefore
can approve of my

proposal, would
can move W. to
Sanction two
Temporary ^{Lacans} at Rs 6
each for a period
of 3 months.

I approve of Mr. Kinnear's
proposal, and suggest that
the temporary establishment
asked for may be sanctioned.

These plans
have been in Mr.
Baldrey's charge for
many years. I
wished to have them
classified and

arranged some time ago and told Mr. Baldrey he could have a Lascar to help one of his Drafts men with the work; but he has apparently not been in a position to do much without more special aid than this. The Plans have been twice moved since 1879 - once from the Fort to the Litho. graphic office in Chapak, and again to the separate building in the new Compound.

Please look into this matter soon - It is of course most desirable that all old plans of any value should be carefully classified & measured.
