10TH JUNE 1882, No. 1451 W., PUBLIC WORKS.

1451/1

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

No. 63.

READ—the following letter from Lieutenant-Colonel H. R. MEAD, R.E., Superintending Engineer, Fourth Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 13th May 1882, No. 182:—

I have the honor to submit for sanction the accompanying four estimates, with reports for manufacture of stock materials in the West Coast Division, and to request that you will be so good as to let me know whether any limit for "Reserve Stock" for the division has been sanctioned with reference to paragraph 1601 of the Code; if so, what limit, and in what authority, so that I may know what estimates for the purpose can be approved of by me and what require sanction of Government. I request also to be informed whether the limit, if any, would be an aggregate sum for the division for a whole year, or it is with reference to each estimate to be sanctioned as the occasion may require.

2. I have authorised the Executive Engineer to proceed with the work for 1882-83 in anticipation of sanction, to take advantage of the dry weather which is now passing away.

No. 64.

From the same Officer, dated 13th May 1882, No. 186.

Report on the accompanying Estimate of Rs. 5,080 for Manufacture of Stock Materials at Ootacamund.

It has been a necessary practice on the Hills to manufacture departmentally bricks and other articles, charging the expenditure to stock and using the bricks, &c., on the works as required.

Estimate Rs. 5,080.

The materials are much wanted to meet the requirements of works, as they cannot be purchased on the Hills when wanted, and can only be made at certain season. It is therefore thought necessary to manufacture bricks, &c., departmentally; an estimate of Rs. 5,080 has been prepared for the current official year 1882-83, and it is requested that it may be sanctioned under paragraphs 1600 and 1601 of the Code.

As the dry weather suitable for the progress of the works is now passing away, the Executive Engineer has been ordered to proceed with the work in anticipation of sanction.

No. 65.

ORDER—dated 10th June 1882, No. 1451 W., Public Works.

The Superintending Engineer submits two estimates for the manufacture of stock during the current official year, amounting to Rs. 6,396, and three estimates for stock

manufactured from November 1880 to March 1882, amounting to Rs. 5,664, for sanction, from the West Coast Division. The three latter estimates, the reports state, have been prepared as the Examiner objects to pass the outlay already incurred for want of estimate and authority.

2. The five estimates submitted are sanctioned and registered as noted below. The manufacture during 1882-83 should be closed within the official year and not tend to increase the reserve stock of the West Coast Division, which has been fixed by Government in G.O., No. 915 W., dated 4th April 1881, at Rs. 2,000 :—

No.	Description	Rs.
No. 27.	Manufacture of stock materials at Wellington during 1882-83 ...	1,316
No. 28.	Do. do. at Octacamund during 1882-83 ...	5,080
No. 29.	Do. do. at Wellington from November 1880 to March 1882 ...	1,677
No. 30.	Do. do. at Lawrence Asylum from November 1880 to March 1882 ...	1,872
No. 31.	Do. do. at Octacamund from November 1880 to March 1882 ...	2,115

Division.

Manufacture of —. Sanctions with re-
marks estimates for the —.

No. 102

Supg. Engineer's Office, 4th Circle
Coimbatore, 12th May 1882.

1451/3
From, The Superintending Engineer
4th Circle

To, The Chief Engineer
P. W. D. Madras.

Sir,

I have the honor to submit,
Enclosures 4.
Estimates for sanction the accompanying four
Estimates with reports for manufacture
of stock materials in the West Coast
Divⁿ, and to request that you will be so
good as to let me know whether any
limit for "Reserve Stock" for the Division
has been sanctioned with reference
to para 1601 of the Code, if so, what
limit, and in what authority, so
that I may know what estimates
for the purpose can be approved
of

1437
of by me and what require
sanction of Government. I request
also to be informed whether the limit,
if any, would be an aggregate sum
for the Division for a whole year, or it
is with reference to each estimate to
be sanctioned as the occasion may
require.

2. I have authorized the Executive
Engineers to proceed with the work for
1882-83 in anticipation of sanction to
take advantage of the dry weather
which is now passing away.

I have the honor to be,
Sir,

Your Most Obedt. Servant
