SIR,

Enclosures.

The Executive Engineer
Buckingham Canal Division
having brought to my notice the
necessity for the constant presence
of a Police Constable at the
Canal Basin at Madras to
maintain order among the large
number of people who have busi-
-ness there, especially the Boat-
-men generally not less than 400 in number,
who are often riotous &c. from drink.
I requested the Commissioner of Police
to arrange for a Police Constable
being always in attendance at the
Basin.

Basin. That officer writes in
reply "I think it is desirable that
"a Constable should be constantly
"in attendance at Cochrane's
"Basin with no other duty to at-
"tend to, but my Revenue force in
"has been so much reduced. I have
"no men available for this purpose;
"if however you can obtain sanc-
"tion I could furnish you with
"two Constables, on payment, at
"the cost noted in the margin -
"two Constables are, I think ne-
"cessary so as to allow of relief."

Monthly
Rs 20.

I have the honor under the
circumstances to request that
sanction may be given to the
sub-statement of two Constables
at the cost of Rs 20 monthly -
or that steps may be taken in view
to the existing Police Staff being

increased

increased by two additional con-
-stables for duty at the Canal Basin.
This measure is very necessary con-
-sidering that the Basin is a place
of great business, always crowded
with people - passengers, traders or
their Agents & the coolies engaged in
loading and unloading cargo besides
the large number (400) of Boatmen.

At present a Constable is
daily stationed at the Basin
Bridge but he is constantly called
away whenever his attendance
is required elsewhere.

I have the honor to be
