This is the Superintendent of the
School of Arts
Madras

Sir,
I regret to have to report
that the Superintendent of the School
of Arts has as yet taken no action
with regard to the excess tithes at the
Salem Church as ordered in your
Memo No. 2295 of 8th October 1881.

This Officer was addressed on
the subject and informed the Executive
Engineer that he wished to inspect
the tithes before taking them back.
Last December I wrote to him

OKL 42/6-

herth order

and requested that the matter
might be adjusted as soon as
possible, but I have received no
answer.

2. The matter has become more complicated, owing to the Superintendent of the School of Arts having sent Coping tiles that both the Executive Engineer and Lay Trustees consider unfit for the work; the Superintendent of the School of Arts was informed of this and requested to take back those rejected Coping tiles, this he has refused to do, and all that I can therefore do is to direct the Executive Engineer not to pay for them, but to return them.

3. I have the honor to request that the Superintendent may be directed to attend to this matter without any further delay. I may mention that the tiles were ordered I believe more than 2 years ago, that a portion of the tiling was sent in January /81 and that there was great delay in forwarding the balance required to complete the work, that no Coping tiles were sent until 23 January /82 although repeatedly asked for, and when sent are as reported not suitable for the work.

I have the honor to be,
Sir,

Your most Obedt. Servant

The Executive Engineer

Salem.

Sir,

I have the honor to acknowledge
the receipt of your letter No 346 dated
the 6th February 82.

I inspected the notes sent
to you before they left Madras they are
the best that can be made in Madras.
They are such as I use myself with
good effect and I decline to take them
over or to arrange in any way for
their disposal.

I will receive and credit
you with all that are returned to
me in the same condition as they
were

were when despatched.

Sir,

I have the honor to inform
you in reply to your Memo N^o 808-C
dated the 17th Instant that the original
correspondence forwarded with your
Memo N^o 2296 dated the 8th October 1881
was returned to you in my letter
dated the 10th October 1881.

In my letter N^o 316 dated
the 9th February 1882 to the Superintending
Engineer Salem (copy enclosed) I stated
that I would receive and credit all
the

the tiles returned to me; 222 running feet
were actually returned, and this quantity
has been used with good effect in
the new School of Arts Picture Gallery
where they are open to your inspection.
The tiles are excellent and I must
decline to pay any part of the cost
of carriage to & from Salem.

As regards the delay in
sending them. The machine for turning
them out (invented by myself) I could
not obtain sanction for and eventually
had to get it out at my own expense -
hence the delay.
