21st JUNE 1882, No. 1573 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

No. 153.

READ—the following letter from J. W. RUNDALL, Esq., Superintending Engineer, Second Circle, to the Chief Engineer, Public Works Department, dated Masulipatam, 6th June 1882, No. 94 G.C.:—

I have the honor, with reference to Code, paragraph 1258, to report that none of the *Sub-division* officers in this circle have iron cash chests; those in use are in every case wooden chests iron-bound.

2. I request you will be good enough to inform me whether iron chests should be obtained for all these officers, in order that the Code rule may be complied with.

3. My opinion is that the rule should be that each division cash chest should be iron, as the Executive Engineer may have to keep securities and other valuable documents, but that as Sub-division officers have sometimes to take the cash chests about with them, a wooden box is more convenient, and as moreover all Sub-division officers (except the Eastern Sub-division of the Kistna Western Division) have drawing accounts at their headquarters, there is never any necessity for the Sub-division officer to hold large sums in cash. I think therefore the Code rule might be modified.

4. On the other hand, both at Nellore and Bezvada, the Anicut Superintendent has been provided with an iron chest, as they may, particularly at Bezvada, receive large sums which could not be paid into the Treasury the same day.

No. 154.

ORDER—dated 21st June 1882, No. 1573 W., Public Works.

The question raised in the foregoing letter is sufficiently covered by G.O., No. 1328 W., dated 29th May 1882, which rules that every officer having cash in his charge shall be responsible for its proper custody, and be expected to make such arrangements as may be necessary for its safe keeping.

2. The modification of Code rules ordered in those Proceedings will extend also to paragraph 1258.

The Chief Engineer P. W. D.,
Madras.

Sir. I have the honor, with reference to Code para 1258, to report that, none of the Sub Division Officers in this file have Iron Cash Chests, those in use are in every case wooden chests Iron-banded.
2. I request you will be good enough to inform me, whether Iron chests should be obtained for all these Officers, in order that the Code rule may be complied with.

3. My opinion is, that the rule should be, that each Division Cash Chest should be iron as the Executive Engineer

Engineers may have to keep Securities
and other valuable documents, but
that as Sub Division Officers have some-
times to take the Cash Chests about with
them, a wooden box is more convenient,
and as moreover all Sub Division Officers
(except the Eastern Sub Division of the Western
Division) have drawing Accounts
at their Head Quarters, there is never any
necessity for the Sub Division Officer to
hold large sums in Cash. I think
therefore the Code rule might be modified
4. On the other hand, both at Bel-
lore and Bezvada, the Amicut Su-
perintendent has been provided with an
Iron Chest, as they may, particularly at
Bezvada, receive large sums which could
not be paid into the Treasury the same day.

I have the honor to be
Your most obedient servant
D. W. Russell
Superintending Engineer
2nd Circle
