GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

1st December 1879, No. 3,050 W.

General.
Account.

Read the following paper:—

No. 1. From Lieutenant-Colonel W. CHRYSTIE, R.E., Superintending Engineer, First Circle, to the Chief Engineer, Public Works Department, dated Dowlaishweram, 10th November 1879, No. 569 G.L.

UNDER the Examiner's Circular, No. 12-B., of the 27th May 1879, Executive Engineers now include in their General Provincial Balance Returns all tools and plant formerly belonging to Local Fund Works, and the question arises what tools shall be handed over to Other Agency with the Local Fund Roads and other works from the charge of which this department will withdraw under your Circular, No. 2,428, of the 25th September 1879.

2. On this point I have the honor to solicit your early instructions. As all works other than Provincial are charged the same $2\frac{1}{2}$ per cent. on outlay for tools, I suggest that the tools handed over should bear the same proportion to the total number of tools in the division as the outlay during the past three years on the works to be handed over does to the total outlay on works in the division during the same three years.

No. 2. ORDER THEREON, 1st December 1879, No. 3,050 W.

THE Government are of opinion that all the tools now held on the general (Provincial) return of Public Works Divisions, and which were shown in the last special return kept of Local Fund Tools, should be transferred to the Local Fund Boards with the transfer of all road works to those bodies.

2. Superintending Engineers will arrange accordingly in communication with Presidents of Local Fund Boards.

Read the following paper:—

No. 52. From the Superintending Engineer, First Circle, to the Chief Engineer,
Public Works Department, dated Madras, 2nd July 1880, No. 1,097.

I HAVE the honor to request you will be so good as to let me know whether
surplus tools and plant, scientific instruments, and office furniture which are not
required by this department can be sold to Local Fund Boards. I have been asked
by Boards if tools, &c., are available for transfer on purchase, and I have not seen
any order of Government on the subject.

No. 53. ORDER THEREON, 12th July 1880, No. 1,635 W.

In G.O., No. 3,050 W., of 1st December, it was directed that the Public Works
Department should make over to the Local Funds Board of each Circle tools equal
in value to the amount shown in the latest separate return of Local Fund tools
and plant.

2. If after this transfer tools in excess of departmental requirements are left
on the hands of Public Works Officers, they may be handed over to Local Funds
Boards at a valuation to be fixed by the Executive Engineer subject to approval by
the Superintending Engineer.

3. The same course may be followed with regard to office furniture, but
scientific instruments should not be handed over but returned to the Public Works
Stores, from whence the wants of Local Funds Boards can be supplied.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

3rd September 1881, No. 2,189 W.

General.
Account.

Read the following paper:—

No. 19. From D. C. GORDON, Esq., Examiner of Public Works Accounts, to the Secretary to Government, Public Works Department, dated Madras, 17th August 1881, No. 104 W.

I HAVE the honor to submit the following remarks for the information of Government and to solicit orders.

2. Under the operation of G.O's. Nos. 3,050 W. of 1st December 1879 and 2,226 W. of 23rd September 1880, certain tools and plant were transferred to the Local Funds Boards from Public Works Divisions. In Proceedings of the Board of Revenue, Miscellaneous No. 4,770, dated 7th May 1881, the President, Local Fund Boards, Cuddapah, reported to the Board of Revenue that the value of tools actually handed over to the Local Fund Boards of Cuddapah and Madanapalle was more than the value charged for Tools and Plant in 1879-80. The Proceedings were forwarded to me for remarks with reference to G.O., No. 2,226 W., of 23rd September 1880, and were submitted by me to you (Office Note No. 198 of 23rd May 1881). You expressed your opinion to the effect that the excess tools should be returned or the value refunded. The Board of Revenue was informed accordingly, and in some instances refunds of value have been obtained.

3. A demand for a refund was made upon the President, Local Fund Board, Coimbatore, for which that officer disclaims all responsibility. Copy of his letter No. 167 of 2nd July 1881, to the Executive Engineer, Coimbatore Division, is forwarded herewith.

4. On a review of the circumstances, in the light of the argument used by the President, I think he is right, and that no refund is warranted. The arbitrary percentage charge was no doubt intended to compensate for the wear and tear of tools used. If for instance a charge of Rs. 1,200 had been made and value to the extent of only Rs. 1,000 handed over, it is but right that value to the extent of the deficiency between charge and supply should be made good to the Boards. On the other hand, if the charge was Rs. 1,200, and value to the extent of Rs. 1,500 was made over, it may be taken as evidence that originally the Local Funds had been charged for tools much in excess of actual requirements, and that therefore the excess had already been paid for.

5. It seems to me that this was the intention of Government when G.O., No. 2,226 W., was framed, and that while the deficiency between the value made over and the percentage charge was to be made good, the excess of the former over the latter should not be recovered.

6. I submit, for consideration of Government, that no refunds should be claimed, and that such as have already been paid by the Local Fund Boards should be repaid.

COPY of letter from the President, Local Fund Board, Coimbatore, to the Executive Engineer, Coimbatore Division, dated 2nd July 1881, No. 167.

I have the honor, in reply to your letter No. 378, dated 23rd June 1881, to point out that the tools handed over by the Public Works Department to the Local Fund Board were the "tools held on the general (Provincial) returns of Public Works Divisions, and shown in the latest special return kept of the Local Fund Tools." (G.O., No. 3,050 W., dated 1st December 1879.) The tools handed over were therefore really the property of the Local Fund Board, because bought with Local Fund moneys. Moreover, the Superintending Engineer, in his letter No. 1,332-C., of 5th December 1879, distinctly stated that no payment would be required for such tools as would be handed over, as indeed none could under the circumstances have, with any propriety, been demanded.

2. The mere fact that the funds for the works of the Local Fund Board were put at the disposal of, and were spent by, the Public Works Department, can give that department no claim to tools bought with Local Fund moneys.

3. As a matter of fact the charges for tools bought with Local Fund moneys from 1871-72 to 1879-80 amounted to Rs. 19,140-15-0, or Rs. 5,914-7-10 in excess of the value of the tools handed over in 1880. Unless, therefore, it can be shown that any of the tools handed over by the Public Works Department to Local Funds in 1880 were bought with other than Local Fund moneys, I must, on behalf of the Local Fund Board, disclaim all responsibility for the charge now made by the Examiner of Public Works Accounts.

No. 20. ORDER THEREON, 3rd September 1881, No. 2,189 W.

THE previous orders on the subject are sufficiently distinct.

2. By G.O., No. 3,050 W., dated 1st December 1879, it was directed that "all the tools now held on the general (Provincial) return of Public Works Divisions, and which were shown in the last special return kept of Local Fund tools, should be transferred to the Local Fund Boards."

3. By G.O., No. 2,226 W., of 23rd September 1880, it was further ordered that when the value of the tools handed over in accordance with the above order was less than the amount charged to Local Funds for tools and plant during 1879-80, such additional tools as might be required to make up the latter amount should be handed over.

4. This latter amount was intended as a minimum limit, it was never intended, nor is there any thing in the orders in question to imply, that it was to be adopted in cases where it was less than the value of the tools handed over under the original order.

5. No refund such as is referred to in paragraphs 2 and 3 of the Examiner's letter was intended to be claimed, and if any such has been already made it should be repaid.

No. 976.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 1st April 1882.

Read the following letter from H. ST. A. GOODRICH, Esq., President of the Local Fund Boards, Ganjam, to the Secretary to the Board of Revenue, dated Chatrapur, 6th February 1882, No. 582 :—

I HAVE the honor to request that the Board will be pleased to obtain the orders of Government in the following matter.

2. In April 1880 in pursuance of G.O., Public Works, dated 25th September 1879, No. 2428-W, the public works in the Chatrapur Circle were handed over by the Department of Public Works to the Local Fund Road Agency together with the materials (gravel, metal and rough stone, &c.,) then on or near the road sides.

3. It seems that a wastage estimated at 25 to 35 per cent. was declared to exist by the Local Fund Supervisor and a Department of Public Works Overseer between the quantities of material returned by the Department of Public Works and by the Local Fund Supervisor. This deficiency amounted to Rs. 3,294 in the total quantity valued at Rs. 11,303, and was not satisfactorily accounted for by the Department of Public Works Overseer; this wastage has been pronounced by the Local Fund Board and Superintending Engineer to be too highly rated.

4. The Local Fund Board, however, allowed a wastage of 15 per cent. in gravel, 7 per cent. in metal, and none in rough stone, which reduced the deficiency to Rs. 1,539; this amount the Local Fund Board claim from Government, and the Superintending Engineer, in reply to my predecessor's letter on the subject, writes to say that "the claim of Rs. 1,539 for deficient materials must be paid unless you (President) get orders of Government to the contrary."

5. In these circumstances, I respectfully solicit that the Board will recommend the Government to admit the reasonableness of the Circle Board's claim of Rs. 1,539, and I request permission to set off this amount against Rs. 1,546 due to Government by the Local Fund Board on account of the value of certain tools lent to them by the Department of Public Works, with reference to G.O., No. 1635-W, dated the 12th July 1880. The difference of Rs. 7 will, of course, be paid by the Local Fund Board.

6. I desire attention to the fact that after the Local Fund Board had objected to receive the quantities found to exist by the Department of Public Works Overseer (Mr. Whitbread) who was deputed to measure up this material as representing the far larger quantities for which they were charged, the same Department of Public Works Overseer appears to have given another certificate, dated seven months later, to the Executive Engineer, Vizagapatam, that the measurements made by him only extended to a mile along one road and were not sufficient to enable him to certify to the percentage. By the time this certificate was given, all materials had been used up and no fresh measurements were possible.

7. It will further be observed from the accompanying statement of detail measurements that that Overseer certifies conjointly with the Local Fund Supervisor that (they agree) "on personal inspection and measurement that the deficiency on an average was about 25 per cent. accounted for by Mr. Whitbread." This was dated

1 Statement of detail measurements.

1 Joint Certificate, dated 7th June 1880.

1 Mr. Whitbread's certificate, dated 2nd January 1881.

1 Superintending Engineer's letter, dated 18th January 1882.

26th June 1880. This leaves no doubt as to the alleged deficiency and the validity of the Circle Board's claim put forward.

8. The marginal papers are sent herewith for the information of the Board and Government.

ENCLOSURE No. 1.

From G. T. WALCH, Esq., Superintending Engineer, First Circle, to the President of the Local Fund Boards, Ganjam District, dated Dowlaishweram, 18th January 1882, No. 56-G.N.

With reference to your letter, No. 2396, dated 27th August 1881, and its enclosures (here-

with returned), I have the honor to forward herewith a copy of Divisional Officer's letter, No. 2394 of 30th November 1881, making certain remarks on your papers under reference, and to inform you that it appears to me—

1st.—That the tools actually handed over to the Board were, as per accompanying list, of a value of Rs. 2,704 against Rs. 1,429 to which the Local Fund Board were entitled—see Proceedings Madras Government, No. 2226-W, dated 23rd September 1880—but that under G.O., No. 2189-W, dated 3rd September 1881, the difference need not be paid.

2nd.—That a second lot of tools of a value of Rs. 1,546 was, in accordance with G.O., No. 1635-W, dated 12th July 1880, handed over, and that the valuation as fixed by the Executive Engineer must be paid.

3rd.—That the claim of Rs. 1,539 for deficient materials must be paid unless you get orders of Government to the contrary.

5. In these circumstances, I respectfully solicit that the Board will recommend the Government to admit the reasonableness of the Circle Board's claim of Rs. 1,539, and I request permission to set off this amount against Rs. 1,546 due to Government by the Local Fund Board on account of the value of certain tools lent to them by the Department of Public Works, with reference to G.O., No. 1635-W, dated the 12th July 1880. The difference of Rs. 7 will, of course, be paid by the Local Fund Board.

6. I desire attention to the fact that after the Local Fund Board had objected to receive the quantities found to exist by the Department of Public Works Overseer (Mr. Whitbread) who was deputed to measure up this material as representing the far larger quantities for which they were charged, the same Department of Public Works Overseer appears to have given another certificate, dated seven months later, to the Executive Engineer, Vizagapatam, that the measurements made by him only extended to a mile along one road and were not sufficient to enable him to certify to the percentage. By the time this certificate was given, all materials had been used up and no fresh measurements were possible.

7. It will further be observed from the accompanying statement of detail measurements that that Overseer certifies conjointly with the Local Fund Supervisor that (they agree) "on personal inspection and measurement that the deficiency on an average was about 25 per cent. accounted for by Mr. Whitbread." This was dated 26th June 1880. This leaves no doubt as to the alleged deficiency and the validity of the Circle Board's claim put forward.

- 1 Statement of detail measurements.
- 1 Joint Certificate, dated 7th June 1880.
- 1 Mr. Whitbread's certificate, dated 2nd January 1881.
- 1 Superintending Engineer's letter, dated 18th January 1882.

8. The marginal papers are sent herewith for the information of the Board and Government.

ENCLOSURE No. 1.

From G. T. WALCH, Esq., Superintending Engineer, First Circle, to the President of the Local Fund Boards, Ganjam District, dated Dowlaishweram, 18th January 1882, No. 56-G.N.

WITH reference to your letter, No. 2396, dated 27th August 1881, and its enclosures (here-with returned), I have the honor to forward herewith a copy of Divisional Officer's letter, No. 2394 of 30th November 1881, making certain remarks on your papers under reference, and to inform you that it appears to me—

1 Copy of Divisional Officer's letter with its enclosures.

7 Documents received from the President, Local Fund Boards.

1st.—That the tools actually handed over to the Board were, as per accompanying list, of a value of Rs. 2,704 against Rs. 1,429 to which the Local Fund Board were entitled—see Proceedings Madras Government, No. 2226-W, dated 23rd September 1880—but that under G.O., No. 2189-W, dated 3rd September 1881, the difference need not be paid.

2nd.—That a second lot of tools of a value of Rs. 1,546 was, in accordance with G.O., No. 1635-W, dated 12th July 1880, handed over, and that the valuation as fixed by the Executive Engineer must be paid.

3rd.—That the claim of Rs. 1,539 for deficient materials must be paid unless you get orders of Government to the contrary.

ENCLOSURE No. 2.—Statement of Detail Measurements.

ENCLOSURE No. 3.—Joint Certificate, dated 7th June 1880.

ENCLOSURE No. 4.—Mr. Whitbread's Certificate, dated 2nd January 1881.

SUBMITTED for the orders of Government.

2. The proposal of the Circle Board contained in paragraph 5 of the President's letter seems fair.

(True Copies and Extract.)

(Signed) E. GIBSON,
Acting Sub-Secretary.

To the Chief Secretary to Government, Financial Department,
with three original enclosures to be returned.
,, President of the Local Fund Boards, Ganjam,
with one original enclosure returned.

Read also the following endorsement of the P.W. Department dated 16th May 1882 No 114 E.
