Proceedings of the Board of Revenue,

Dated 4th May 1882.

No. 1235 Miscellaneous.

RECEIVED the following letter from W. S. Whitehead Esquire Collector
of North Arcot to the Secretary to the Board of
Revenue dated Chittoor 6th March 1882 No. 83.

I have the honor to submit the
following matter for the consideration and
orders of the Board of Revenue.

2. A 2nd Class Taluk Cutcherry is now under
construction at Lower Tirutani for the Office
of the Tirutani Sub-magistrate. The Inspector
General of Registration having concurred
with me in thinking that a separate ac-
commodation should be provided for
the Tirutani Sub-Registrar's Office in the
Compound of the Taluk Cutcherry, I
placed myself in communication with the
officers of the D.P.W., urging the necessity

for erecting a separate building of suitable size for the purpose, the cost of which could be conveniently met from the sum of Rs. 50,000 provided for outlay on buildings in 1881-82 in para 25 of Mr. Hammett's Administration Report for 1880-81. Mr. Morris, Executive Engineer, informed me that two rooms in the Talag Cutcherry building itself would be made available for the Sub-Registrar's Office. But as one of these rooms is what is intended for the safe custody of unclaimed property produced before the Sub-Magistrate from time to time, I drew Mr. Morris' attention to this fact & requested him to reconsider the matter.

3. Major Mead, the Superintending Engineer, & Litch has, however, finally informed me, in his letter of the 7th ultimo No. $\frac{51}{na}$, that the standard plan for Talag Cutcheries provides no room for the custody of unclaimed property, and that, therefore, the room in question cannot be made use of for that purpose. I beg to observe that the standard plan does not shew

664/3

that the said room was originally intended to be used as a Sub-Registrar's office, and that in the event of this room being now taken up for that office, there will be no place in the Cutcherry for the custody of unclaimed property. Large quantities of property of that description, and also articles of various kinds in connection with criminal cases are not unfrequently produced before the Sub-Magistrate, and a special room is necessarily required in which to secure such articles. The reservation of the room in question for that purpose is therefore absolutely necessary, and a separate building for the Sub-Registrar's office can conveniently be constructed in the compound of the Cutcherry at no large outlay.

4) Should it, however, be finally decided that the above mentioned room should be taken up for the Sub-Registrar's office as proposed by Major Mead, I have no other

4

other alternative than to ask for
sanction to build another room for the
custody of unclaimed property as
stated above. The Butcheri building
is now in course of rapid construction,
and I therefore solicit early orders on
the subject.

Submitted for the orders of
Government.

2. The Board observe that
by G.O.s dated 20th May 1871. No 680 and
27th November 1871. No 1581 the Government
sanctioned the addition to 1st and 2^d
class Salug Butcherries of rooms for
the Registration ^{Department} but in the standard
plan for 2^d class butcherries approved
in G.O. 18th April 1876. No 736 no special
provision is made either for the
Registration Department or for the
custody of unclaimed property.
