READ—the following G.O., dated 15th June 1882, No. 468 N., Judicial :—

Read—the following papers :—

From G. HAMNETT, Esq., Inspector-General of Registration, Madras, dated 1st November 1881, No. 754.

In my notes on the inspection of the Sub-Registrar's Office of Yellamanchili in the district of Vizagapatam on the 2nd March 1881 I remarked as follows :—

"A room measuring $18 \times 9\frac{1}{2}$ has been assigned in the Taluk Cutcherry for the Sub-Registrar and his Clerk and records. There are two almirahs already in the room. A third almirah is required. If supplied, the room will be hardly large enough for the purpose. Even at present there is barely standing room for parties coming for registration. It is very necessary the Sub-Registrar should have another room. The Registrar will write officially on the point."

2. The Registrar now submits a sketch showing how a room may be added. I cannot say I approve the suggestion. It would be better, I think, to utilize the "Police room," and build a new room for the Police, or to put the Police in the room used by the Sub-Registrar and add another room to the Police room for the Sub-Registrar's Office.

3. I have the honor to request that the sanction of the Government may be granted in the Public Works Department for the preparation of the necessary plan and estimate for the provision of additional accommodation.

From the Acting Collector, Vizagapatam, dated 15th May 1882, No. 496.

With reference to your endorsement, No. 1791, dated 8th November 1881, on a letter from the Inspector-General of Registration, No. 754, dated 1st November, regarding the providing of another room for the Sub-Registrar of Yellamanchili in the compound of the Taluk Magistrate's Cutcherry, I have the honor to annex extracts from my Principal Assistant's letter, dated 11th May 1882, No. 118, who personally and carefully examined the site selected. I entirely agree with the sentiments expressed by Mr. Winterbotham. Copy of his rough sketch is enclosed.

"It will be seen that the record room at the back of the cutcherry projects beyond the two side wings. If the western wing be extended 15 feet, its extremity will then be in the same line with the extremity of the record room. This will no doubt to some extent injure the architectural symmetry of the cutcherry when viewed from the back, and in no other respect is there any objection to the alteration.

"3. On measurement I find that the inner dimensions of each of the rooms, A and B, are 17 feet 4 inches by 9 feet 4 inches. If the room C be built, the Sub-Registrar will then have an office 24 feet long by 17 feet 4 inches broad, which will afford ample space for himself, his clerks, and records.

"4. There is plenty of room in the compound (on the site of the present ryots' shed which is in ruins) to erect a separate building for the Sub-Registrar's Office if that be thought preferable. This would leave the symmetry of the main building unimpaired, and would add to the appearance of the cutcherry viewed from the west.
 "I think the difference in cost would not be so great as to render this suggestion unworthy of consideration."

From the Inspector-General of Registration, dated 24th May 1882, No. 1441 T.

With reference to endorsement, No. 146, dated the 23rd May instant, on a letter from the Collector of Vizagapatam, I have the honor to state that Mr. Winterbotham's proposal to erect a separate building for the Sub-Registry Office at Yellamanchili, instead of adding a room to the Taluk Cutcherry, may be adopted, if the Government deem it desirable to do so.

Order—dated 15th June 1882, No. 468 N., Judicial.

The proposal to build a Sub-Registry Office in the Taluk Cutcherry compound at Yellamanchili is approved. The Public Works Department will therefore be requested to arrange for the preparation of the necessary plans and estimates.
