READ—the following G.O., dated 29th June 1882, No. 472, Judicial :—

Read—the following letter from G. HAMNETT, Esq., Inspector-General of Registration, to the Chief Secretary to Government, dated Ootacamund, 23rd June 1882, T. No. 1932 :—

The Registrar of Madura sent up two estimates in September 1881 for improving the accommodation afforded to the Sub-Registrar of Tirumangalam.

2. As the improvement related to a building belonging to the Revenue Department, I asked the Superintending Engineer of the Circle, with reference to the Proceedings of the Government, Public Works Department, No. 647 W., dated the 11th March 1881, whether he saw any objection to the addition proposed to be made.

3. The Superintending Engineer now informs me that he finds on inquiry that “the General Charge Deputy Collector objects to the proposed extension of the present office of the Sub-Registrar of Tirumangalam.

“The Executive Engineer agrees with the Deputy Collector, as he considers the eutcherry building to be too confined as it is, and recommends that a new building may be constructed for the Sub-Registrar.”

4. The Sub-Registrar's Office consists of a single room about 15' x 10', and is hardly enough for the almirahs and tables belonging to the office. It is very desirable that more accommodation should be provided, and I have the honor to request that you will be pleased to obtain the sanction of the Government for the erection of a new building on the standard design.

Order—dated 29th June 1882, No. 472, Judicial.

Approved and transferred to the Public Works Department.
