,, Consulting Architect to Government, dated 20th May 1882, No. 151.

No. 45.

ORDER—dated 7th July 1882, No. 1705 W., Public Works.

In the papers now read the Superintending Engineers of the several Circles and the Consulting Architect have applied for funds on account of incomplete works of 1881-82, and for certain new works which have been sanctioned but not yet commenced, and which they recommend for execution during the current official year 1882-83.

2. There are no funds under Military Reserve to appropriate for Item No. 1 in the statement accompanying this resolution, and the work will have to stand over until it is seen what sums Superintending Engineers propose to resign from the grants assigned in the budget for A Class works. Funds to complete Item No. 2, constructing lines at Sámalkót for a detachment of Native Infantry, have been provided in the revised budget lately submitted to the Government of India for sanction.

3. The appropriation of Rs. 2,772 required to complete constructing a head sluice, &c., across the Markanam Brine Channel, Item No. 5 of the statement, has been met by reappropriation, subject to the approval of the Government of India, from the allotment provided in the budget for huts for two Head Constables and nineteen Constables at Agastiampalle in the Negapatam Division (Item No. 7 of Budget), and which has been resigned by the Superintending Engineer, Sixth Circle, in his No. 521 T.J., dated 22nd June 1882.

4. Funds for Police works costing less than Rs. 2,500 each are appropriated from the budget provision, Item No. 36, and funds for Registration Offices are granted from the provision in the budget for such buildings, Item No. 45.

5. Appropriations applied for sums less than Rs. 500 in each case are omitted in the statement accompanying this resolution, as under Code, paragraph 1739, Clause III, funds are unnecessary in such cases.

6. Appropriations applied for works entered in the budget as Class B are also omitted in the statement, and such works should be taken up separately and reported on by Superintending Engineers if they consider that any of the works should be commenced during the current year.

The several sums appropriated are shown in Column No. 10 of the accompanying statement.

Read the following papers :—

No. 125.

No. 56.

Report to accompany Estimate for repairing the sea-wall and constructing groyne to protect the Beach at Beypore.

One Sketch of Beach.
,, Survey of Sea-wall.
,, Sheet of Cross Section.
Two detailed Estimates.
,, Reports with Specifications.
One Abstract.

THE correspondence and orders in G.O., No. 2722 W., dated 26th November 1880, and No. 495 W., dated 23rd February 1881, will show that it is considered that the sea-wall built from the main land at Beypore to the rocky island at the recommendation of Mr. Robertson should be maintained.

Last year in G.O., No. 495, dated 23rd February 1881, Rs. 1,110 were sanctioned for these repairs, the work was carried out ; but in the month of June unusual weather occurred and the wall was much injured and breached in places. This action went on in subsequent months. Besides this the Local Fund road south of the wall which adjoins the railroad property was washed away. The estimate now forwarded, amounting to Rs. 5,340, provides for the thorough repair of the sea-wall at a cost of Rs. 3,470 and for the erection of a groyne of 70 feet in length ordered by the Chief Engineer on his inspection on the 19th January 1882 ; this groyne is intended for the protection of the sea beach to the west of the railroad property, the cost of this will be Rs. 1,870.

These works ought to be completed by the 15th May, and to enable this to be done orders have been given for the collection of materials, to meet this a grant of Rs. 2,000 will be required this year, and next official year a grant of Rs. 3,340, the balance of the estimate.

No. 125-A. Endorsement of the Chief Secretary to Government, Marine Department, dated 10th March 1882, No. 74, Routine.

From J. H. TAYLOR, Esq., Lieutenant, R.N.R., Master Attendant, Administrative Department, to the Chief Secretary to Government, Marine Department, dated Madras, 7th March 1882, No. 1850.

I HAVE the honor to return the plan and estimate for repairs to Beypore, with the remark that I cannot consider that any portion of the work is debitable to Port Fund, except the trifling restoration of the sea-wall near the beach, which can, I imagine, be easily effected by removing the surplus stone from that portion of the wall nearest the rocky islet, and supplementing the remainder, if necessary, with some of the rock from the islet itself. I do not consider that the real benefit of this sea-wall has ever been established. The bar of Beypore is not, so far as I can observe, lower or the entrance more regular than it used to be. The impression on my mind, after visiting the spot with the Chief Engineer, was that a little readjustment of the materials of the wall was all that we considered necessary so far as the Port Fund was concerned. I cannot imagine any action, such as is described on the south beach opposite the Railway buildings and the camp road, being attributable to the sea-wall, which surely must have had a protective tendency. When the last erosion, which it was sought to throw the expense of on Port Funds, took place, it was on the flagstaff or north side of the wall. If therefore the wall is a source of serious detriment and expense to the neighbourhood, and cannot show any adequate advantage to the port in improving the bar, I would respectfully recommend its being removed.

FORWARDED to the Public Works Department.

(Signed) R. DAVIDSON,
Chief Secretary.

Note by the Chief Engineer.

IN last January I visited Beypore and examined the erosions which are the subject of the annexed correspondence in company with the Superintending and Executive Engineers.

The result of the instructions then given is the accompanying estimate, the items of which are—

	RS.
(1.) Repairing the sea-wall between the shore and the rocky island ...	3,470
(2.) Constructing a groyne, 70 feet long, south of the above	1,870
Total ...	5,340

3,605

Captain Taylor, in his letter No. 1850 of the 7th instant, questions the utility of the sea-wall, cannot see the connection between its being breached and the erosions of the shore south, and considers that Port Funds should not be called on to pay for any work.

To this it must be said that the sea-wall connecting the shore with the rocky island was constructed under the advice given by Mr. Robertson after visiting the place.

Captain Taylor thinks that the real benefit of the sea-wall has never been established. I am however certainly inclined to think that as, in the *first* place, such scour as is produced by the river in monsoon floods is by its means concentrated in the bar, and as, in the *second* place, sand travelling from south to north in the usual way is thereby arrested, the sea-wall ought to do good. Whether as a fact it has done so or not I am not in a position to prove. I should certainly advise its being repaired as now estimated for, till by constant observation we are in a better position to form a definite opinion. To leave it in its present state will only invite its general destruction.

1705/6

Admitting that there may be some doubt on the subject, I think if the work be sanctioned the Port Funds should bear at least a moiety of the cost, viz., Rs. 1,735.

As regards the groyne south, I considered it essential, judging from the very serious erosions that had taken place along the whole length of shore, which if allowed to go on unchecked may in time cut back into, and endanger the property of, the Railway.

If the work prove successful in arresting further erosion in its immediate neighbourhood, other groynes of the same character will in all probability be needed.

I would strongly advise this being gone on with without delay.

Properly speaking these works are carried out more in the joint interest of the Local Fund Road and the Railway than in that of Provincial, but in any case they should go on, leaving, if necessary, the final incidence of the charge to be determined hereafter.

(Signed) R. H. SANKEY, Colonel, R.E.,
Chief Engineer, P.W.D.

13th March 1882.

No. 126. ORDER THEREON, 17th March 1882, No. 708 W.

THE estimate, amounting to Rs. 5,340, for repairing the sea-wall and constructing a groyne to protect the beach at Beypore, is sanctioned.

2. The Right Honorable the Governor in Council concurs in the views expressed by the Chief Engineer in his note above recorded, and accordingly directs that a moiety (Rs. 1,735) of the cost (Rs. 3,470) of repairing the sea-wall be borne by Port Funds. The balance (Rs. 3,605) of the total estimate (Rs. 5,340) will, for the present, be met from Provincial Funds, but the incidence of the cost (Rs. 1,870) of constructing the groyne will be determined hereafter.

3. The sum of Rs. 2,000 is allotted from the Provincial Reserve of 1881-82 to meet the current year's expenditure. Funds to meet expenditure in 1882-83 will be provided in April as follows :—

To be placed at the disposal of Public Works Department from Port Funds—

	RS.
Works	1,735
Establishment at Rs. 23 per cent.	399
Tools and Plant	43
Total ...	2,177

to be allotted from the Provincial Reserve Rs. 1,605.

4. This sanction has been registered as Excluded Local No. 58 W. of 1881-82, and classified as Miscellaneous Public Improvement, Repairs.

No. 42. From H. F. CLOGSTOUN, Esq., Officiating Accountant-General, to the Secretary to Government, Public Works Department, dated Fort St. George, 4th February 1882, No. 462.

WITH reference to the Proceedings of Government in the Public Works Department, No. 104 W., dated the 12th January 1882, I have the honor to observe that although provision has been made in the Cinchona Budget for 1882-83 for the completion of the buildings at Naduvatam, the actual outlay must ultimately be borne as a Provincial Public Works charge with reference to the rulings of the Government of India recorded in the Proceedings of this Government, No. 205, dated the 27th January 1880, Financial. I request therefore that orders may be passed providing for the outlay on this account from the sum of Rs. 2,82,900 held as a "reserve at the disposal of Government including Minor Works."

No. 43. ORDER THEREON, 13th February 1882, No. 397 W.

AN allotment of Rs. 8,374 will be made from the Provincial Reserve of 1882-83 for the Cinchona buildings at Naduvatam.

Read the following paper :—

No. 26. From Colonel J. BEATTY, R.E., Superintending Engineer, Sixth Circle, to the Chief Engineer, Public Works Department, dated Trichinopoly, 21st January 1882, No. 163 M.D.

Executive Engineer's letter (copy), dated 16th November 1881, No. 73.
Madura Sub-division Officer's, dated 10th December 1881, No. 559, with three copies of correspondence.
Copy of Executive Engineer's, dated 9th January 1882, No. 357.

THE Officiating Executive Engineer, Madura, has brought to notice that two of the rooms in the Tirumal Naick's palace are at present occupied by Barristers practising in the Civil Court of Madura.

2. These gentlemen were, apparently, allowed to occupy the rooms by officers of this department (without reference to higher authority) on paying the cost of certain fixtures, such as partition walls, and on condition of a refund of the amount being made them in the event of their being called on to vacate the rooms. They pay no rent.

3. This arrangement being contrary to the Code Rules, I have the honor to request permission to refund the sums paid (200 rupees in the one case and 400 rupees in the other), and to require these gentlemen to pay rent in future for the rooms they occupy, and to be prepared to vacate at a month's notice in the event of the rooms being required for a Government purpose.

4. I send the Executive Engineer's letters for your perusal.

No. 27. ORDER THEREON, 7th February 1882, No. 336 W.

THE proposals of the Superintending Engineer are approved.

2. The amounts required for repayment on account of the partition will be met from the Reserve of 1882-83.

3. The Government have no objection to a room being set apart for general use by pleaders or vakeels attending the Courts, or to afford such facilities to the gentlemen in question as may be necessary, but they must altogether decline to permit private persons to acquire exclusive possession of any of the rooms. The Superintending Engineer will therefore, after discharging the claims now under disposal, give notice to the present occupants that they must be prepared to vacate the rooms in question within a year from the date of such notice, and he will further take measures for preventing the recurrence of any such unauthorised arrangements.

No. 11. From Colonel J. BEATTY, R.E., Superintending Engineer, Sixth Circle, to the Chief Engineer, Public Works Department, dated Trichinopoly, 22nd November 1881, No. 564 T.N.

I have the honor to submit for sanction an estimate, amounting to Rs. 1,100, for constructing four Police huts at Sivagiri in the Tinnevelly District in accordance with the standard plan No. 2, specification and estimate approved in G.O., No. 93 W., of 14th January 1880, and the estimate has been countersigned by the Inspector-General of Police.

2 Abstract Estimates.
1 Report.

2. The huts are to be built on private land, but as the Zemindar of Sivagiri has consented to give up the land without compensation, no provision is made in the estimate on this account.

3. The Police Superintendent informs me that the work is included in the scheme for 1883-84, which he submitted to the Inspector-General of Police.

No. 12. Order thereon, 5th December 1881, No. 3023 W.

The estimate, amounting to Rs. 1,100, for constructing four Police huts at Sivagiri in the Tinnevelly District is sanctioned.

2. This sanction has been registered as Provincial No. 106 W. of 1881-82, and classified as Civil Buildings, Original Works.

PUBLIC WORKS DEPARTMENT.

16th November 1881, No. 2864 W.

Buildings and Roads.
Civil Works.

Read the following papers :—

No. 84. From Lieutenant-Colonel J. BEATTY, R.E., Superintending Engineer, Third Circle, to the Chief Engineer, Public Works Department, dated Kodaikánal, 6th May 1881, No. 166 T.C.

As directed in G.O., No. 799 W., of 23rd March 1881, I have the honor to submit an estimate for putting that portion of the Gúdalúr Ghât in British territory into thorough repair.

1 Estimate with detail and specification.
1 Abstract.

2. The Gúdalúr Ghât takes its name from the village of Gúdalúr in the Cumbum valley, Madura district, and that village is about 5 miles distant from the foot of the ghât. The ghât is, I am told, about 18 miles long, owing to the numerous windings among the hills, and it leads to the town of Peermade or Pirmerd in the Travancore country.

3. Only the first 4 miles of the ghât on the Madura side are in British territory, and it is these 4 miles that have been left without repair for some two years, and have consequently fallen into a very ruinous state. In several places the road is actually dangerous owing to landslips and the fall of revetments, but everywhere it is badly cut up, partly by wear and tear, and partly by the action of surface drainage.

4. The estimate for putting the piece of ghât in thorough order amounts to Rs. 6,820; and was prepared, under my instructions, by the Madura Sub-division Officer, Supervisor Sergeant McAlister, as Supervisor Littlewood, who was lately in that neighbourhood making a survey and levels of the Cumbum-Gúdalúr road, had returned to his ordinary duties in the Trichinopoly district.

5. The repairs consist of restoring portions of the road that have slipped; rebuilding revetments and parapet walls that have fallen; clearing vents of tunnels, many of which are completely choked; filling in ruts or gullies, which are in many places two feet deep; and reforming and remetalling the road surface. The ruts are to be filled in with the only gravel procurable, which is a kind of disintegrated rock, and the metal to be broken stone. There is no good gravel within many miles, and the best stone available is a kind of gneiss.

6. I have had a revised abstract estimate prepared in my office and attached to the estimate, in which I have lumped together a number of petty items, so as to reduce the total number as much as possible for account purposes.

7. As the department is but feebly represented* in Madura at present, I would strongly recommend that funds for this work be handed over to the Local Fund Board if, as I believe to be the case, they are willing to undertake it with their own establishment, which is said to be working well at present, especially in the Dindigul Circle.

Proceedings No. 168 of 1881.

Read President's foot-note to Proceedings of the Board of Revenue, Miscellaneous No. 8104, dated 29th August 1881, requesting to obtain the views of the Local Fund Board on the subject of entrusting the supervision of Cumbum to Gúdalúr road and the Gúdalúr Ghát line to Mr. Hardy, the Gandamanáyakanúr Estate Engineer.

The Board accept Mr. Hardy's services and request the President to be good enough to arrange the cost of establishment.

ENCLOSURE No. 3.

Enclosures to Board's Proceedings, dated 30th September 1881, No. 645 R.S.

Letter—dated 7th October 1881, No. 150.

No. 1057, dated 14th June 1881.
Mis. No. 7540, dated 6th August 1881.

* Enclosures returned.

WITH reference to the Proceedings of the Board of Revenue as per margin, I have the honor to forward herewith copies of the resolutions of the Local Fund Board, Dindigul Circle, Nos. 132 and 168 of 1881, in which that Board express their inability to carry out the works with their present Engineering staff, and accept the services of Mr. Hardy lent to them by the Court of Wards† for the purpose.

† Proceedings of the Court of Wards, No. 8104.

2. Mr. Hardy has been requested to submit proposals regarding establishment, &c., and they‡ will be sent up to Board when received. The difficulty is with regard to the supply of funds, and I request that arrangement be made to keep the Local Fund Board in sufficient funds in order that the work when commenced may be pushed on continuously without being stopped for want of funds. If funds can be at once placed at our disposal, there will be no difficulty in beginning the work immediately; but it is hoped that when once funds are allotted arrangements may be made for making the supply constant.

‡ Together with estimates, &c.

RESOLUTION—

SUBMITTED to Government with reference to their endorsement, dated 25th May 1881, No. 921.

2. To enable the Circle Board to undertake the immediate repair of the road in question, the Board have agreed to lend the services of Mr. Hardy, the Engineer in charge of the Public Works in Gandamanáyakanúr and other estates now under the charge of the Court of Wards—Board's Proceedings, dated 29th August 1881, Miscellaneous No. 8104.

3. The President is requested to return the original endorsement of Government forwarded to him with Board's Proceedings, dated 6th August 1881, Miscellaneous No. 7540.

(True Copies and Extract.)

Acting Sub-Secy.

TRANSFERRED to the Department of Public Works.

(Signed) E. L. LAFFAN,
Acting Asst. Secy.

No. 85. ORDER THEREON, 16th November 1881, No. 2864 W.

THE estimate, amounting to Rs. 6,820, for repairing the portion of the Gúdalúr Ghât in British territory, is sanctioned for execution by the Local Fund Board, Dindigul Circle.

2. The outlay will be met from the allotment of Rs. 20,000 in the current year's Provincial Budget for completing the road from Cumbum to the foot of the Gúdalúr Ghât, and the Local Fund Board will be kept in funds by the Superintending Engineer in the manner prescribed in G.O., No. 1375 W., dated 14th June 1880.

3. This sanction has been registered as Provincial No. 95 W. of 1881-82, and classified as Communications, Repairs.

4. The Government await a reply to memorandum No. 1402, dated 13th June 1881, relative to the estimate for completing the road from Cumbum to the foot of the Gúdalúr Ghât.

(True Extract.)

No. 67. From Quartermaster-General, dated 11th May 1881, No. 539.

No. 68. ORDER THEREON, 17th June 1881, No. 1,519 W.

THE papers read above give cover to statements of requirements of Superintending Engineers and Superintendents of Works on account of incomplete works of 1880-81 and of new works sanctioned but not yet commenced and which are recommended for execution in 1881-82.

2. The sum of Rs. 10,000 required for renewing the roofs of the north and south blocks of the old barracks at Poonamallee, has, as recommended by the Superintending Engineer, Second Circle, been provided by transfer from the appropriation made in the budget for the barracks for European troops at Poonamallee subject to the approval of the Government of India. A further sum of Rs. 4,573 has also been transferred from the grant for budget item I to admit of the completion of the undermentioned works which cannot be provided for from the Reserve—

(*a*) Additions and alterations to new hospital at Poonamallee.
(*b*) Additions and alterations to old hospital.

3. Under Provincial it has not been possible to provide for any uncommenced works, the balance under Reserve being only Rs. 38,416, which sum is hardly sufficient to provide for the most emergent incomplete works.

4. The Government fully recognize the importance of carrying out several uncommenced works now brought to notice, but regret that for financial reasons they are compelled to postpone them.

5. The Financial Department will authorise the Accountant-General to place at the disposal of the Public Works Department the sum of Rs. 6,052, required for the following works, from the sum of Rs. 50,000 alluded to in G.O., No. 2,168, dated 22nd November 1880, Financial Department :-

	RS.
Sub-Registrar's Office at Kumbakónam...	747
District Registrar's Office at Tanjore	4,000
	4,747
Establishment charges	1,187
Tools and Plant	118
Total ...	6,052

By this arrangement the sum of Rs. 13,107 applied for in G.O., No. 366 W., dated 10th February 1881, on account of the Registrar's Office at Tanjore will not be wanted.

6. The Financial Department will further authorise the Accountant-General to place to the credit of the Public Works Department the amounts required from the following sources :—

	RS.	
Convict Labor Fund	14,874	By transfer to the credit of Provincial Funds.
Cattle Pound Fund	21,837	
Educational Building Fund	5,758	
Port Fund...	4,768	

7. The Revenue Department have already been requested by endorsement No. 1,257 of 20th May 1881 to authorise the Conservator of Forests to place Rs. 11,132 at the disposal of the Executive Engineer, West Coast Division, on account of the Deputy Conservator of Forest's residence at Manantoddy.

8. Column 10 of the annexed statement shows the amount that has been appropriated in 1881-82.

9. It should be distinctly understood that no works other than those for which appropriations are now made should be proceeded with in the absence of the special orders of Government.

10. The attention of officers of the department is called to Rule III under paragraph 1,757 of the Code, from which they will observe that when the amount required to complete a work of a previous year is less than Rs. 500, no appropriation is necessary to cover the unexpended balance in the current year. The statements should not therefore include works of this character. By a little additional exertion towards the close of each financial year, the number of these works should be small.

(True Extract.)

The Assistant Commissioner
Salt Revenue
Tanjore

To,

The Executive Engineer
Vizagapatam Division

Sir,

In reply to your letter No 1009 dated 24th Ultimo I have the honor to inform you that as no huts are now required at [illegible] and those at Vizagapatam are to be built departmentally and as no transfer of funds can be made from your Department the allotment must therefore be surrendered to Government.

I have the honor &c.

Chief Engineer P.W.D.

Sir,

Enclos: 1.

With reference to Item No. 7 in the Final Issue of the Imperial Other Services Budget of 1882-83, allotting Rs. 3,000 for the work "Huts for two Head Constables and 19 Constables at Agastiampally" in the Negapatam Division, I have the honor to inform you that the Executive Engineer reports he has heard from the Salt Department that no huts are required at Agastiampally and that the allotment should be given up. Under the circumstances, I request that the amount may be withdrawn.

2. A copy of letter from the Assistant Commissioner of Salt

Revenue to the Executive Engineer, No 857 of the 31st Ultimo, on the subject is also forwarded for your information.

I have the honor to be

No 1705 W

Genl: Arch.

PUBLIC WORKS DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT,

UNDER date the 7th July 1882

Read the following :—

From the Supdt. Engr. First Circle No 109 G. L. of 24th May 1882.

From the Supdt. Engr. Second Circle No 55 G. d. of 19th May 1882.

From the Supdt. Engr. Third Circle No — of 5th May 1882.

From the Supdt. Engr. Fourth Circle No 172 of 5th May 1882.

From the Supdt. Engr. Fifth Circle Nos 466 and 467 of respectively 11th May 1882.

From the Supdt. Engr. Sixth Circle No — of 3d June 1882. and No 521 T. 3 of 22d June 1882.

From the Consulting Architect to Government No 157 of 20th May 1882.

In the papers now read the Supdt. Engrs of the several Circles and the Consulting Architect have applied for funds on account of incomplete works of 1881-82, and for certain new works which have been sanctioned but not yet commenced, and which they recommend for execution during the current official year 1882. 83.

2. There are no funds under Military Reserve to appropriate for Item No 1 in the Statement accompanying this resolution, and the work will have to stand over, until it is seen what sums Supdt. Engrs propose to

to resign from the grants assigned in the Budget for A Class works. Funds to complete Item No 2 Constructing lines at Samalcottah for a detachment of Native Infantry have been provided in the Revised Budget lately submitted to the Govt. of India for sanction.

3. The appropriation of Rs 7442 required to complete Constructing a Head sluice &c. across the Markanam Branie Channel. Item No 5 of the Statement has been met by reappropriation, subject to the approval of the Govt. of India, from the allotment provided in the budget for Huts for two head constables and 19 Constables at Ayoalti-ampalle in the Nya-

[illegible]

[illegible] Division (Item No 7 of budget) and which have been required by the Supdt. Engr Sixth Circle in his No 521 T.I. of 22d June 1882.

4. Funds for Police Works costing less than Rs 2500 each are appropriated from the Budget provision Item No 36, and funds for Registration Offices are granted from the provision in the Budget for such Buildings Item No 45.

5. Appropriations applied for sums less than Rs 500 in each case are omitted in the statement accompanying this Resolution as under Code Form 1439 clause III funds

1705/77

are unnecessary in such cases.

6. Appropriations applied for works entered in the Budget as Class B are also omitted in the statement, and such works should be taken up separately and reported on by Supdt. Engrs. if they consider that ~~the~~ any of the works should be commenced during the current year.

The several sums appropriated are shown in Column No. 10 of the accompanying statement.
