From,

The Executive Engineer
In charge 1st Circle.

To,

The Chief Engineer
Public Works Department.

Sir,

Dowlaiswaram 29 June 1882.
Despt 30-11

Adverting to Circular No. 729 G,
dated 28th March 1882, I have the honor to
state as follows.

Under the misapprehension
therein alluded to, Apprentice Supervisor
L. Subramania Iyer was when he first
joined the Eastern Division, placed at
once in charge of a number of works
about to be commenced on the Cocanada
Canal. When the above quoted Circular
+ late in April was received, the Supervisor had many
of the works in hand, some of them near
completion, this coupled with the fact
that the works were being satisfactorily
carried on, induced Mr. Welch; on the

the representation of the Eastern Division
Officers; to allow the Supervisor to continue
me as a Cash Disburser until the 1st
of June, and on a still further representa-
tion of the delay and loss likely to accrue
to unfinished works, from a change of
Supervision; this period was extended
to the end of June.

The Supervisor joined the Divi-
sion on the 8th November last, so he will
have been actually nearly 8 Months
out of his 12 Months apprenticeship, in
charge of works as a Cash disburser.
Under these circumstances I would
solicit permission to continue him
in charge of the works. he has worked
so steadily and well at-

I have the honor to be
